---

Due to a NASR processing error, NFDD-107 (National Flight Data Digest) dated 06/03/2022 that was posted to the web this morning (6/2/2022) contains invalid data and has been taken down from the web. Please disregard NFDD 107 in its entirety until a new NFDD is created.

Our team is working on correcting this issue, and a new/corrected NFDD will be numbered differently for clarity and an update will be provided.
