## CHARTING NOTICE

Date: December 19, 2022

To: Users of digital-US Terminal Procedures Publications  
And US Terminal Procedures Publications

From: Aeronautical Information Services

Subject: Process change for creation of Airport Diagram PDF files

---

---

Recent system and software upgrades have resulted in changes to the application used to produce PDF versions of the Airport Diagram PDF files only. This could cause a slight shift of a few pixels for each Airport Diagram, which could affect customers who repackage or print FAA charts.

In preparation for the conversion, sample PDF charts are available for test purposes. Sample PDF chart files are available at: [https://aeronav.faa.gov/d-tpp/Airport\\_Diagram\\_PDFs/](https://aeronav.faa.gov/d-tpp/Airport_Diagram_PDFs/)

The new Airport Diagram PDF process will be implemented for the April 20, 2023 effective date.

If you have comments or questions regarding this change, please submit an inquiry via the Aeronautical Information Portal: [https://www.faa.gov/air\\_traffic/flight\\_info/aeronav/aero\\_data/](https://www.faa.gov/air_traffic/flight_info/aeronav/aero_data/)
