# CHARTING NOTICE

Date: October 16, 2019

To: Users of VFR Sectional, Terminal Area, and Helicopter Route Charts

From: Aeronautical Information Services

Subject: Deletion of VFR Waypoint Tabulations on VFR Sectional, Terminal Area, and Helicopter Route Charts

---

---

## VFR Waypoint Tabulations on VFR Products

Beginning with the February 27, 2020 editions, VFR Waypoint Tabulations will be removed from VFR Sectional, Terminal Area, and Helicopter Route Charts. VFR waypoint symbols and names will remain charted. The removal is necessary due to the large number of VFR Waypoints established in the past 20 years. Insufficient space in the chart border areas prevent the depiction of the increasing number of VFR waypoints in the tabulations.

VFR Waypoint data may be accessed using Flight Navigation Global Positioning System (GPS) and applications:
