

LIST OF FIGURES

CHAPTER ONE

- Figure 1.1 Study Area
- Figure 1.2 National Airspace System
- Figure 1.3 FAA's Domestic Reduced Vertical Separation Minimum (DRVSM)
- Figure 1.4 FAA's Wake Turbulence Separation Standards
- Figure 1.5 Typical ATC Management of an Aircraft
- Figure 1.6 Air Route Traffic Control Centers
- Figure 1.7 Terminal Radar Approach Control (TRACON) Airspace Boundaries
- Figure 1.8 Airports within the Study Area
- Figure 1.9 Robbinsville-Yardley Flip-Flop Procedure
- Figure 1.10 Dual Modena Procedure
- Figure 1.11 Intermingling of Traffic Flows in the Study Area

CHAPTER TWO

- Figure 2.1 Future No Action Airspace Alternative – JFK Major Departure Flows
- Figure 2.2 Future No Action Airspace Alternative – JFK Major Arrival Flows
- Figure 2.3 Future No Action Airspace Alternative – LGA Major Departure Flows
- Figure 2.4 Future No Action Airspace Alternative – LGA Major Arrival Flows
- Figure 2.5 Future No Action Airspace Alternative – EWR Major Departure Flows
- Figure 2.6 Future No Action Airspace Alternative – EWR Major Arrival Flows
- Figure 2.7 Future No Action Airspace Alternative – TEB Major Departure Flows
- Figure 2.8 Future No Action Airspace Alternative – TEB Major Arrival Flows
- Figure 2.9 Future No Action Airspace Alternative – PHL Major Departure Flows
- Figure 2.10 Future No Action Airspace Alternative – PHL Major Arrival Flows
- Figure 2.11 Modifications to Existing Airspace Alternative – LGA Major Departure Flows
- Figure 2.12 Modifications to Existing Airspace Alternative – EWR Major Departure Flows
- Figure 2.13 Modifications to Existing Airspace Alternative – TEB Major Departure Flows
- Figure 2.14 Modifications to Existing Airspace Alternative – PHL Major Departure Flows
- Figure 2.15 Ocean Routing Airspace Alternative – JFK Major Departure Flows
- Figure 2.16 Ocean Routing Airspace Alternative – JFK Major Arrival Flows
- Figure 2.17 Ocean Routing Airspace Alternative – LGA Major Departure Flows
- Figure 2.18 Ocean Routing Airspace Alternative – EWR Major Departure Flows
- Figure 2.19 Integrated Airspace Alternative Variation without ICC – LGA Major Departure Flows
- Figure 2.20 Integrated Airspace Alternative Variation without ICC – EWR Major Departure Flows
- Figure 2.21 Integrated Airspace without ICC – TEB Major Departure Flows
- Figure 2.22 Integrated Airspace Alternative Variation without ICC – TEB Major Arrival Flows
- Figure 2.23 Change in Existing Terminal Airspace to ICC Airspace
- Figure 2.24 Integrated Airspace Alternative Variation with ICC – JFK Major Departure Flows

- Figure 2.25 Integrated Airspace Alternative Variation with ICC – JFK Major Arrival Flows
- Figure 2.26 Integrated Airspace Alternative Variation with ICC – LGA Major Departure Flows
- Figure 2.27 Integrated Airspace Alternative Variation with ICC – LGA Major Arrival Flows
- Figure 2.28 Integrated Airspace Alternative Variation with ICC – EWR Major Departure Flows
- Figure 2.29 Integrated Airspace Alternative Variation with ICC – EWR Major Arrival Flows
- Figure 2.30 Integrated Airspace Alternative Variation with ICC – TEB Major Departure Flows
- Figure 2.31 Integrated Airspace Alternative Variation with ICC – TEB Major Arrival Flows
- Figure 2.32 Integrated Airspace Alternative Variation with ICC – PHL Major Departure Flows
- Figure 2.33 Integrated Airspace Alternative Variation with ICC – PHL Major Arrival Flows

CHAPTER THREE

- Figure 3.1 Physiographic Regions in the Study Area
- Figure 3.2 John F. Kennedy International Airport
- Figure 3.3 LaGuardia Airport
- Figure 3.4 Newark Liberty International Airport
- Figure 3.5 Teterboro Airport
- Figure 3.6 Philadelphia International Airport
- Figure 3.7 Existing Land Use in the Study Area
- Figure 3.8 John F. Kennedy International Airport Generalized Land Use
- Figure 3.9 LaGuardia Airport Generalized Land Use
- Figure 3.10 Newark Liberty International Airport Generalized Land Use
- Figure 3.11 Teterboro Airport Generalized Land Use
- Figure 3.12 Philadelphia International Airport Generalized Land Use
- Figure 3.13 Population Density in the Study Area (2000)
- Figure 3.14 Noise Measurement Site Locations
- Figure 3.15 2000 Population Centroid Locations with Population Density
- Figure 3.16 Radar Flight Tracks
- Figure 3.17 NIRS Departure Tracks for LGA
- Figure 3.18 2000 Existing Conditions Noise Exposure Levels
- Figure 3.19 Enlarged View – Baseline 2000 Aircraft Noise Exposure
- Figure 3.20 Parks and Natural Features within the Study Area
- Figure 3.21 Historic Sites within the Study Area
- Figure 3.22 SO₂ Non-Attainment and CO Maintenance Areas
- Figure 3.23 8-Hour Ozone Non-Attainment Areas
- Figure 3.24 PM₁₀ and PM_{2.5} Non-Attainment Areas
- Figure 3.25 Atlantic Flyway
- Figure 3.26 New York Bight and Delaware River Watersheds
- Figure 3.27 Bird Conservation Regions

CHAPTER FOUR

- Figure 4.1 2006 Future No Action Airspace Alternative Noise Exposure
- Figure 4.2 2006 Future No Action Airspace Alternative Noise Exposure – NY/NJ Metropolitan Area
- Figure 4.3 2006 Future No Action Airspace Alternative Noise Exposure – PHL Metropolitan Area
- Figure 4.4 2011 Future No Action Airspace Alternative Noise Exposure
- Figure 4.5 2011 Future No Action Airspace Alternative Noise Exposure – NY/NJ Metropolitan Area
- Figure 4.6 2011 Future No Action Airspace Alternative Noise Exposure – PHL Metropolitan Area
- Figure 4.7 2006 Modifications to Existing Airspace Alternative Change in Noise Exposure
- Figure 4.8 2011 Modifications to Existing Airspace Alternative Change in Noise Exposure
- Figure 4.9 2006 Modifications to Existing Airspace Alternative Change in Noise Exposure – NY/NJ Metropolitan Area
- Figure 4.10 2011 Modifications to Existing Airspace Alternative Change in Noise Exposure – NY/NJ Metropolitan Area
- Figure 4.11 2006 Modifications to Existing Airspace Alternative Change in Noise Exposure – PHL Metropolitan Area
- Figure 4.12 2011 Modifications to Existing Airspace Alternative Change in Noise Exposure – PHL Metropolitan Area
- Figure 4.13 2006 Ocean Routing Airspace Alternative Change in Noise Exposure
- Figure 4.14 2011 Ocean Routing Airspace Alternative Change in Noise Exposure
- Figure 4.15 2006 Ocean Routing Airspace Alternative Change in Noise Exposure – NY/NJ Metropolitan Area
- Figure 4.16 2011 Ocean Routing Airspace Alternative Change in Noise Exposure – NY/NJ Metropolitan Area
- Figure 4.17 2006 Integrated Airspace Alternative Variation without ICC Change in Noise Exposure
- Figure 4.18 2011 Integrated Airspace Alternative Variation without ICC Change in Noise Exposure
- Figure 4.19 2006 Integrated Airspace Alternative Variation without ICC Change in Noise Exposure – NY/NJ Metropolitan Area
- Figure 4.20 2011 Integrated Airspace Alternative Variation without ICC Change in Noise Exposure – NY/NJ Metropolitan Area
- Figure 4.21 2006 Integrated Airspace Alternative Variation without ICC Change in Noise Exposure – PHL Metropolitan Area
- Figure 4.22 2011 Integrated Airspace Alternative Variation without ICC Change in Noise Exposure – PHL Metropolitan Area
- Figure 4.23 2011 Integrated Airspace Alternative Variation with ICC Change in Noise Exposure
- Figure 4.24 2011 Integrated Airspace Alternative Variation with ICC Change in Noise Exposure – NY/NJ Metropolitan Area
- Figure 4.25 2011 Integrated Airspace Alternative Variation with ICC Change in Noise Exposure – PHL Metropolitan Area
- Figure 4.26 EWR – Environmental Justice

- Figure 4.27 PHL – Environmental Justice
- Figure 4.28 Delaware Cultural Resources Area of Interest
- Figure 4.29 Newark Liberty International Airport Area of Potential Effect
- Figure 4.30 Philadelphia International Airport Area of Potential Effect
- Figure 4.31 HPN Bird Study Area
- Figure 4.32 ISP Bird Study Area
- Figure 4.33 JFK Bird Study Area
- Figure 4.34 LGA Bird Study Area
- Figure 4.35 EWR Bird Study Area
- Figure 4.36 PHL Bird Study Area
- Figure 4.37 HPN Bird Study Area - Integrated Airspace Alternative Variation with ICC Departures
- Figure 4.38 HPN Bird Study Area – Future No Action Airspace Alternative Departures
- Figure 4.39 HPN Bird Study Area - Integrated Airspace Alternative Variation with ICC Arrivals
- Figure 4.40 HPN Bird Study Area – Future No Action Airspace Alternative Arrivals
- Figure 4.41 ISP Bird Study Area - Integrated Airspace Alternative Variation without ICC Departures
- Figure 4.42 ISP Bird Study Area - Integrated Airspace Alternative Variation with ICC Departures
- Figure 4.43 ISP Bird Study Area - Integrated Airspace Alternative Variation with ICC Arrivals
- Figure 4.44 ISP Bird Study Area – Future No Action Airspace Alternative Departures
- Figure 4.45 ISP Bird Study Area – Future No Action Airspace Alternative Arrivals
- Figure 4.46 JFK Bird Study Area – Ocean Routing Airspace Alternative Departures
- Figure 4.47 JFK Bird Study Area – Ocean Routing Airspace Alternative Arrivals
- Figure 4.48 JFK Bird Study Area - Integrated Airspace Alternative Variation with ICC Departures
- Figure 4.49 JFK Bird Study Area - Integrated Airspace Alternative Variation with ICC Arrivals
- Figure 4.50 JFK Bird Study Area – Future No Action Airspace Alternative Departures
- Figure 4.51 JFK Bird Study Area – Future No Action Airspace Alternative Arrivals
- Figure 4.52 LGA Bird Study Area – Modifications to Existing Airspace Alternative Departures
- Figure 4.53 LGA Bird Study Area – Integrated Airspace Alternative Departures
- Figure 4.54 LGA Bird Study Area – Integrated Airspace Alternative Variation with ICC Arrivals
- Figure 4.55 LGA Bird Study Area – Future No Action Airspace Alternative Departures
- Figure 4.56 LGA Bird Study Area – Future No Action Airspace Alternative Arrivals
- Figure 4.57 EWR Bird Study Area – Modifications to Existing Airspace and Integrated Airspace Alternatives Departures
- Figure 4.58 EWR Bird Study Area – Ocean Routing Airspace Alternative Departures
- Figure 4.59 EWR Bird Study Area – Future No Action Airspace Alternative Departures
- Figure 4.60 PHL Bird Study Area – Modifications to Existing Airspace and Integrated Airspace Alternatives Departures
- Figure 4.61 PHL Bird Study Area – Future No Action Airspace Alternative Departures

CHAPTER FIVE

- Figure 5.1 PHL Runway 27 Departures ROMA Route Variations
- Figure 5.2 HPN Mitigated Departures
- Figure 5.3 LGA Runway 31 Mitigated Departures
- Figure 5.4 LGA Runway 22 Mitigated Arrivals
- Figure 5.5 EWR Runways 22 L/R Mitigated Departures
- Figure 5.6 EWR Runways 22 L/R Mitigated Arrivals
