## Federal Aviation Administration

National Airspace System

Capital Investment Plan

Appendix E

Fiscal Years 2014 – 2018

(Page Intentionally Left Blank)

## **LIST OF ACRONYMS AND ABBREVIATIONS**

Number	
2D	two dimensional
2DBC	two dimensional bar coding
3D	three dimensional
4D	four dimensional
4D-OTM	four dimensional-oceanic trajectory management
4D Wx SAS	four dimensional weather single authoritative source
A	
AAtS	airborne access to SWIM
AAM	office of aerospace medicine
AAR	airport arrival rate
ABAAS	architectural barriers act accessibility standards
ABRR	airborne reroute execution
ACAIS	aircraft certification and audit information system
ACAS-X	redesigned airborne collision avoidance system
ACAT	acquisition category
ACEF	aircraft cabin environment facility
ACE-IDS	automated surface observing system controller equipment-information display system
ACEPS	ARTCC critical and essential power systems
ACM	adjacent center metering
ACS	aeronautical common services
ACTD	advanced concept technology demonstration
AEB	acquisition executive board
ADA	American Disabilities Act
ADAS	automated weather observation data acquisition system
ADD	airworthiness directives development
ADM	add drop multiplexer
ADS-B	automatic dependent surveillance-broadcast
ADS-C	automatic dependent surveillance-contract
ADS-R	automatic dependent surveillance-rebroadcast
AEA	association of European airlines
AEB	ASIAS executive board
AEDT	aviation environmental design tool
AEFS	advanced electronic flight strip
AeroMACS	aeronautical mobile airport communications system
AES	alternative energy systems
AFIS	automatic flight inspection system
AFS	FAA flight technologies and procedures division
AFSFM	Alaskan flight service facility modernization
AFSS	automated flight service station
A/G	air-to-ground
AGIS	airport geographic information system
AGL	above ground level
AI	aeronautical information
AI	artificial intelligence
AIDSIM+	beta version of airport capacity model
111001111	com , or or or unport oupword, moder

G + D G D	
CARSR	common air route surveillance radar
CANSO	civil air navigation service organization
CAS	commercially available software
CAS	collision avoidance system
CAST	commercial aviation safety team
CAT	category of precision landing requirements
CATM	collaborative air traffic management
CATMT	collaborative air traffic management technologies
CAVS	CDTI assisted video separation
CBI	computer-based instruction
CCB	change control board
CCS	conference control switch
CD 2	common digitizer (converts analog radar data to digital format)
CDA	continuous descent approach
CDM	collaborative decision making
CDP	concept development plan/ climb descent procedures
CDR	critical design review
CDTI	cockpit display of traffic information
CEA	compliance and enforcement actions
CEDAR	comprehensive electronic data analysis
CENRAP	center radar approach
CERAP	center radar approach control
CFE	communications facilities enhancement
CFIT	controlled-flight-into-terrain
CFR	code of federal regulations
CHI	computer human interface
CI/EP	certification of imported/exported products
CIM	collaborative information management
CIO	chief information officer
CIP/FIP	current icing product/future icing product
CIWS	corridor integrated weather system
CIX	collaborative information exchange
CLEEN	continuous low energy, emissions and noise
CMA	configuration management automation
CMC	corrective maintenance contract
CMTD	concept maturity technology development
CNS	communications, navigation and surveillance
CONOPS	concept of operations
CONUS	continental United States
COS	continuity of service
COSPA	consolidated storm prediction for aviation
COTS	commercial off-the-shelf
CPDLC	controller-pilot data link communications
CPDS	critical power distribution system
CRA	conflict resolution advisory
CRD	concept and requirements document
CRDR	concept requirements development readiness
CREWS	CTAS remote weather system
CSM	certified software management
CSMC	cyber security management center
CSPA	closely spaced parallel approaches
CSPO	closely spaced parallel runway operations
COLO	Leosery spaced parametrumway operations

CSPR	closely spaced parallel runways
CSSD	common status and structure data
CST	communication support team
CssWx	common support team  common support services weather
CTAS	center TRACON automation system
CTAS	
CTS	collaborative trajectory planning coded time source

MATCT	mobile air traffic control tower
MB	marker beacon
MDR	multimode digital radio
MEARTS	microprocessor en route automated radar tracking system
MHz	megahertz
MIT/LL	Massachusetts Institute of Technology Lincoln Laboratory
MITRE	MITRE Corporation
MLAT	multilateration
MMAC	Mike Monroney Aeronautical Center
MOA	memorandum of agreement
MOB	contract award mobility
MOC	mid term operational capability
MOCC	midstates operations control center
Mode S	mode select
MOIE	mission oriented investigation and experimentation
MON	minimum operational network
MOPS	minimum operational performance standards
MPAR	multi-function phased array radar
MPS	maintenance processor subsystem
MPT	meter point time
MSAD	monitor safety and analyzed data
MSRD	monitor safety related data
MSSR	monopulse secondary surveillance radar
MTSR	maintenance test system replacements
MWS	maintenance work station
MX	mobile engine generator
IVIZX	modic engine generator
N	
NADIN	national airspace data interchange network
NADIN MSN	national airspace data interchange network – message switching network
NADIN PSN	national airspace data interchange network – package switching network
NAFIS	next generation flight inspection system
NARP	national aviation research plan
NAS	national airspace system
NASA	National Aeronautics and Space Administration
NASDOC	national airspace system document
NASE	NAS adaptive services environment
NASPAC	national airspace system performance analysis capability
NASR	national airspace system resources
NAVAIDS	navigation aids
NAV Lean	navigation procedures implementation plan
NCAR	National Center for Atmospheric Research
NCO	national coordination office

NCP noise compatibility program	
NCP NAS change proposal	
NCR NAS common reference	
NDB non-directional beacon	
NEMC NAS enterprise management centers	
NEMS NAS enterprise messaging service	
NEPA National Environmental Policy Act	
NEXCOM next generation air/ground communications	
NEXRAD next generation weather radar	
NextGen next generation air transportation system	
NG-VRRP next generation voice recorder replacement program	
NEXTOR National Center of Excellence for Aviation Operations Research	
NGIP NextGen Implementation Plan	
NHIN national health information network	
NIEC NextGen integration and evaluation capability	
NIPRNET non classified internet protocol router network	
NISC national airspace system implementation support contract	
NLIHA NEXRAD legacy, icing, and hail algorithm	
NLN national logging network	
NMAC near mid-air collision	
NMCS network management control system	
NMR NADIN MSN rehost	
NNEW NextGen network enabled weather	
NOAA National Oceanic and Atmospheric Administration	
NOCC national operations control center	
NOP national offload program	
NORDO no radio	
NOTAM notice to airmen	
NPI NEXRAD product improvement	
NPS NextGen performance snapshots	
NRCS national radio communications system	
NRN national remote maintenance monitoring network	
NSIP NextGen system implementation plan	
NSOS national security officer service	
NSPD National Security Presidential Directives	
NSWRC next generation surveillance and weather radar capability	
NTEP national test equipment program	
NTML national traffic management log	
NTP/PTP network time protocol/precision time protocol	
NTSB National Transportation Safety Board	
NVS national airspace system voice system	
NWP NextGen weather processor	
NWS National Weather Service	
A Table 1 Country Set 120	
0	
OA operational analysis	
OA operational analysis OAPM optimization of airspace and procedures in the metroplex	
OA operational analysis OAPM optimization of airspace and procedures in the metroplex OARS operational analysis and reporting system	
OA operational analysis OAPM optimization of airspace and procedures in the metroplex OARS operational analysis and reporting system OASIS operational and supportability implementation system	
OA operational analysis OAPM optimization of airspace and procedures in the metroplex OARS operational analysis and reporting system	

ODALS	omni directional airport lighting system
ODNI	omni-directional airport lighting system  Office of the Director of National Intelligence
	operational error
OEAAA	I .
OEMA	obstruction evaluation/airport airspace analysis
OED	original equipment manufacturer
OEPPG	operational evolution partnership
OFDPS	offshore flight data processing system
OGS	open geospatial consortium
OI	operational improvement
OLS	operational land switch
O&M	operation and maintenance
OMB	Office of Management and Budget
OPS	operations
ORD	operational readiness demonstration
OSA	operational safety assessment
OSD	operational suitability demonstration
OSF	operational support facilities
OSHA	Occupational Safety and Health Administration
OSPe	oversee system performance - external
OSPi	oversee system performance - internal
OST	Office of the Secretary of Transportation
OSTP	Office of Science and Technology Policy
OT	operational improvement
OTA	other transactions agreements
OT&E	operation test and evaluation
OTM	oceanic trajectory management
OTTM	oceanic tactical trajectory management
OTW	out the window
P	
<b>P</b> P3I	pre-planed product improvement
	pre-planed product improvement predictive analysis and intervention
P3I	predictive analysis and intervention
P3I PA&I	
P3I PA&I PANYNJ	predictive analysis and intervention  Port Authority of New York and New Jersey
P3I PA&I PANYNJ PAPI	predictive analysis and intervention  Port Authority of New York and New Jersey  precision approach path indicator  performance based navigation

POCC	pacific operations control center
PPS	precise positioning service
PR	procurement request
PRISM	FAA purchasing management system
PRM-A	precision runway monitor – alternate
PRM-E	precision runway monitor – electronic scan radar
PRM-R	precision runway monitor - replacement
PS3	power systems sustain support
PSP	program safety plan
PTR	problem trouble report
PX	prime generators
Q	
QA	quality assurance
QMS	quality management system
QoS	quality of service
<u> </u>	4
R	
RA	resolution advisory
RAIM	reliability and integrity monitor
RAPCON	radar approach control
RAPPI	random access planned position indicator
RAPT	route availability planning tool
RASP	
RBRT	regional ADAS service processor
	risk based resource targeting
RCAG	remote communication air to ground
RCE	radio control equipment
RCF	radio communication facilities
RCISS	regulation and certification infrastructure system safety
RCL	radio communication link
RCLR	radio communications link repeater
RCLT	radio communications link terminal
RCM	reliability centered maintenance
RCO	remote communications outlet
RCOM	recovery communications
R&D	research and development
RDA	radar data acquisition
RDHFL	research and development human factors lab
RDVS	rapid deployment voice switch
RE&D	research, engineering, and development
REIL	runway end identifier lights
REL	runway entrance lights
RepCON	replacement documentation and configuration identification system
RF	radio frequency
RFFA	radio-frequency filter amplifier
RFI	radio frequency interference
RFI ELIM	radio frequency interference elimination
RFP	request for proposal
RFW	router firewall
RI	runway incursion
RID	runway incursion device
RIL	runway intersection lights

RIRP	runway incursion reduction program
RMA	reliability maintainability availability
RMLS	remote monitoring and logging system
RMLS NRN	remote monitoring and logging system national RMM network
RMM	remote maintenance monitoring
RMMC	remote maintenance monitoring and control
RMMS	remote maintenance and monitoring system
RMP	resource and management plan
RMSET	remote maintenance system engineering team
RMT	resource management tool
RNAV	area navigation
RNP-4	required navigation performance-4 nm
ROC	radar operations center
ROC	regional operations center
RPG	radar product generator
RPM	revenue passenger mile
RSA	runway safety areas
RSA	runway safety assessment
R-side	radar controller position
RTA	required time of arrival
RTCA	Radio Technical Commission for Aeronautics
RTP	resource tracking program
RTR	remote transmitter/receiver
RUC	
RVP	rapid update cycle
	radar video processors
RVR RWI	runway visual range
	reduce weather impact
RWSL	runway status lights
RX	receiver
S	
SA	special authorization
SAA	special activities airspaces
SAAR	special aircraft and aircrew authorization required
SAIDS	system atlanta information display system
SAMS	special use airspace management system
SAPA	simplified aircraft-based paired approach
SAR	search and rescue
SARA	Superfund Amendment and Reauthorization Act
SARPS	standards and recommended practices
SAS	safety assurance system
SAS	single authoritative source
SASO	system approach for safety oversight
SATNAV	satellite navigation
SAWS	standalone weather sensors
SBAS	satellite based augmentation system
SBS	surveillance and broadcast services
SC	special committee
SCM	surface conformance monitoring
SCS	secure conference system
SDA	system design approval
SDAT	sector design and analysis tool

SDD	software design document
SDO	super density operations
SDP	signal data processor
SDR	system design review
SE2020	system engineering 2020 contract
SecFac	secure facsimile
SESAR	
SFA	Single European Sky ATM Research special flight authorizations
SFME	strategic flow management enhancement
SFMI SGS-T	strategic flow management integration
	signal generator subsystem – type
SID	standard instrument departure
SIM	surveillance interface modernization
SIP	SWIM implementing programs
SIPRNET	secret internet protocol router network
SIR	screening information request
SITS	security integrated tool set
SLEP	service life extension program
SMA	surface movement advisor
SMGCS	surface movement guidance control system
SMR	surface movement radar
SMS	safety management system or surface management system
SNT-SMA	staffed NextGen tower – small and medium airports
SO	staff offices
SOA	service oriented architecture
SOP/LOA	standard operating procedure/letters of agreement
SOW	scope of work
SpclAC	special airworthiness certifications
SPMO	special program management office
SPO	safety policy
SPR	safety promotion
SPS	standard positioning service
SRM	safety risk management
SRMD	safety risk management document
SRMTS	safety risk management tracking system
SRS	software requirements specification
SSA	system safety assessment
SSB	single sideband
SSD	significant standards difference
SSDI	system security design and integration
SSE	safety security and environment
SSM	support modification
SSMIMO	subscriber station multi-input multi-output
SSMT	system safety management transformation
SSPP	strategic sustainability performance plan
SSS	system segment specification
SSV	standard service volume
STAR	standard terminal arrival routes
STARS	standard terminal automation replacement system
STARS/SL	STARS Lite
STBO	surface trajectory based operation
STDDS	SWIM terminal data distribution system

STE	
	secure telephone equipment
StdAC	standard airworthiness certifications
STEM	science technology engineering math initiation
STEP	sustainment and technology evolution plan
STM	surface traffic management
STMP	special traffic management program
STN	satellite telephone network
STVS	small tower voice switch
SUA	special use airspace
SVS	synthetic vision system
SW	software
SWAC	system-wide analysis capability
SWIM	system-wide information management
SWS	support work station
SX	standby generator
T	
TACAN	tactical air navigation antenna
TAMR	terminal automation modernization replacement
TARP	traffic analysis and review program
TBD	to be determined
TBFM	time-based flow management
TBM	time based metering
TBO	trajectory based operations
TCAS	traffic alert and collision avoidance system
TCM	taxi conformance monitoring
TCS	terrestrial communication subsystem
	· ·
TCWF TDDS	terminal convective weather forecast
	terminal data distribution system
TDLS	tower data link service
TDWR	terminal Doppler weather radar
TE	test equipment
TechNET	technicians network
TERPS	terminal instrument procedures
TFDM	tower flight data manager
TFM	traffic flow management
TFM-M	traffic flow management modernization
TFMS	traffic flow management system
TFR Bldr	temporary flight restriction builder
TGF	target generator facility
THL	takeoff hold lights
TIS-B	traffic information service-broadcast
TMA	traffic management advisor
TMC	traffic management coordinator
TMI	traffic management initiative
TMU	traffic management unit
TOPA	TCAS operational performance assessment
TOps	trajectory operations
TPC	TFM processing center
TR	technology refresh
TRACON	terminal radar approach control
TRAMS	TCAS resolution advisory (RA) monitoring system
·	

TRS-R TFM	M remote site – reengineering
	fic situation awareness with alerts
\ /	fic situation display
	nnical standard order
	nnical support services contract
	e to alarm
	ninal voice switch replacement
	ninal weather information for pilots
U	
	conned singueft gystem
	nanned aircraft system versal access transceiver
	nanned aerial vehicles
	fied contracting system
	fied flight planning and filing
	a high frequency taffed infrastructure sustainment
	nterruptable power module nterruptible power source
	r request evaluation tool
	government configuration baseline
	. Notices to Airmen system
USINS U.S.	. Notices to Airmen system
V	
v vers	
	nal approach slope indicator
	F data link
	CS display module replacement
	CS electronics module
	aal flight rules
	y high frequency
	tical integrated liquid
	CS integrated test suite
	nal meteorological conditions
	tical navigation
	ce over internet protocol
	y high frequency omni-directional range
	y high frequency omni-directional range collocated with tactical air navigation
	R test range
	fication requirements traceability matrix
	ce switching and control system
	ce switch bypass system
	ce switch replacement system
	CS training and backup switch
VTCR VTA	ABS test controller replacement
W	
WAAS wide	e-area augmentation system
WAM wide	e are multilateration
	·

WAT	work activity tracking
WBS	work breakdown structure
WCS	web coverage services
WE-CTP	web enabled - collaborative trajectory planning
WebCM	web configuration management
WFS	web features services
WiMAX	worldwide interoperability for microwave access
WINS	weather information network server
WIT	workplace inspection tool
WJHTC	William J. Hughes Technical Center
WME	wind measuring equipment
WMS	web map services
WMSCR	weather message switching center replacement
WMSS	WARP maintenance and sustainment services
WOCC	Washington operations center complex
WOI	weather observation improvements
WP	work package
WRR	weather radar replacement
WSDD	web service description documents
WSDS	wind shear detection services
WSP	weather systems processor
WTMA-P	wake turbulence mitigation for arrivals - procedures
WTMD	wake turbulence mitigation for departures
WTS-BMgmt	work tracking software - budget management
WTS-RBRT	work tracking software – risk based resource tracking
WTS-WAT	work tracking software – work activity tracking
Wx	Weather
WXXM	weather information exchange model

(Page Intentionally Left Blank)
