#### **RVSM**

[Domestic and International RVSM](#) guidance is provided on the IFIM Home Page. Click on the **Air Traffic** tab and select **Separation Standards** from the drop down list.

#### **Technical Stop**

Same requirements as non-scheduled flights.

#### **Overflight**

Where the bilateral agreement between the user and FCCC exists, the request for carrying out a transit single/private flight of a foreign aircraft along the ATS routes of the Republic of Belarus shall be submitted to UMMMZDZX, UMMDYAYX not later than 1 hour before the planned time of departure.

#### **Non-scheduled Flights (Charters)**

Non-scheduled (Considered to be in Belarus as single or private) flights shall be operated on the basis of permission issued on preliminary request.

The request for carrying out a single/private flight of a foreign aircraft along the ATS routes as well as to the airports (aerodromes) of the Republic of Belarus shall be submitted to FCCC not later than 5 (five) working days (except Saturday, Sunday and Public Holidays) before the beginning of planned flight from 0700 to 1700 UTC.

The permission for non-scheduled (single, private) flights is valid during 24 hours starting from ETD, indicated in the permission.

### **Private Flights**

Same as for Non-scheduled operations

### **Fees**

Users should anticipate varying fees for take-off and landing charges, security, parking, off hour service, and air navigation charges. Refer to free on-line AIP.

### **Fuel**

Jet A1 is available at all AOE's. AvGas is only available at UMII.

### **Night VFR**

(ENR 1.2-1 para 10 & 13)

Visual flights at night shall envisage:

- Piloting of aircraft along the line of natural horizon, light and ground features with simultaneous control via the instruments over its spatial position
- Flight operation maintaining the intervals of horizontal separation established for IFR and the intervals of vertical separation
- Maintaining the assigned level (altitude) taking into account the artificial obstacles
- The ATS unit provides separations between the aircraft using the surveillance facilities and (or) using the flight crew position reports
- The presence of continuous two-way radio communication between the ATS unit and the flight crew
