Flight Information

The accuracy and currency of information contained in this guide is uncertain due to the difficulty in obtaining the information and the rapidly changing environment. Aviators should always check with a country's aviation authority or a local aviation handler to determine any specific aircraft airworthiness/equipment and crew/passenger entry requirements.

Airports of Entry

[GLRB](#) [Roberts International Airport](#)

Entry/Exit Requirements

Entry and exit requirements are for aircraft departing the United States non-stop to country of destination. These requirements do not include any technical stops. Please refer to **Technical Stop** section in **Additional Information** for the country at which the technical stop will be made.

Entry and Exit documentation forms vary from country to country. In general, however, ICAO member countries will accept the following standard ICAO Annex 9 Entry/Exit documents:

- General Declaration
- Passenger Manifest
- Cargo Manifest
- Embarkation/Disembarkation Card
- Certificate of Residual Disinsection

Examples of these documents can be found at [IFIM Home>General Information>International Flying Overview> ICAO Annex 9 Entry/Exit Documents](#). The acceptance of these ICAO documents must be confirmed by the appropriate AIS.

Prior to departure pilots must ensure they are complying with and meet the entry requirements for the destination country.

Entry Requirements (Departing the U.S.)

- File an [eAPIS](#) manifest outbound (recommend inbound at this time, too)
- File and activate international flight plan
- Land at a designated airport of entry (AOE) – customs and immigration

The following entry documents are required:

Passengers –

- Passport
- [Visa](#) - required for U.S. Citizens
- ICAO Embarkation/Disembarkation Card
- Yellow Fever vaccination certificate

Crew as you should be– Same as passengers

Note: Other requirements may be applicable in lieu of those stated. Contact appropriate AIS for further clarification prior to flight

Aircraft –

| Customs/Douanes | 1 | - | 1 |
| Immigration | 1 | 4 | - |
| Health/Sante | 1 | 1 | - |
| Agriculture | 1 | - | 1 |

Note: If no passengers are embarking (or disembarking) and no articles are laden (unladen), only the General Declaration is required to be distributed as above.

Exit Requirements (Departing Liberia)

- Depart from an AOE
- File [eAPIS](#) manifest if inbound to the U.S.
- File an international flight plan
- Call U.S. Customs at filed U.S. airport of entry

Additional Flight Information

Aircraft Instruments and Equipment

U.S. airworthiness and certification requirements may not meet other country requirements. It is the responsibility of the pilot to determine if the aircraft meets those requirements.

The items listed below are for the pilot's reference to determine if the aircraft meets the minimum instrument and equipment requirements of the destination country. Additional equipment may be required to comply with the airspace navigation requirements.

Commercial air transport aircraft operating in Liberia must adhere to the provisions of ICAO Annex 6 – Operation of Aircraft, Part 1 – International Commercial Air Transport – Aeroplanes, Chapter 6 (Aeroplanes Instruments, Equipment and Flight Documents) and Chapter 7 (Aeroplane Communication and Navigation Equipment).

ICAO Documents can be purchased from ICAO at: <http://store1.icao.int/>

Additional relevant information is contained in the Liberia Civil Aviation Regulation (LCAR) Part 7.1.1.4. Contact the Liberia Civil Aviation Authority for details.

Due to the difficult nature of the terrain, signaling and survival equipment is recommended.

RVSM

[Domestic and International RVSM](#) guidance is provided on the IFIM Home Page. Click on the **Air Traffic** tab and select **Separation Standards** from the drop down list.
