Flight Information

The accuracy and currency of information contained in this guide is uncertain due to the difficulty in obtaining the information and the rapidly changing environment. Aviators should always check with a country's aviation authority or a local aviation handler to determine any specific aircraft airworthiness/equipment and crew/passenger entry requirements.

(Portugal shall be deemed to include Mainland Portugal, Madeira and the Azores)

Airports of Entry

LPAZ	Santa Maria Airport
LPFR	Faro International Airport
LPLA	Lajes Airport
LPMA	Madeira Airport
LPPD	Ponta Delgada Airport

LPPS	Porto Santo Airport
LPPT	Lisboa International Airport

All air carriers operating to LPPT, LPPS, LPMA and LPFR shall always submit a request for the allocation of available landing and/or take-off slots to the coordinator and receive approval before operating.

Entry/Exit Requirements

Entry and exit requirements are for aircraft departing the United States non-stop to country of destination. These requirements do not include any technical stops. Please refer to **Technical Stop** section in **Additional Information** for the country at which the technical stop will be made.

Entry and Exit documentation forms vary from country to country. In general, however, ICAO member countries will accept the following standard ICAO Annex 9 Entry/Exit documents:

- Passenger Manifest
- Cargo Manifest
- Embarkation/Disembarkation Card

Examples of these documents can be found at [IFIM Home>General Information>International Flying Overview> ICAO Annex 9 Entry/Exit Documents](#). The acceptance of these ICAO documents must be confirmed by the appropriate AIS.
