Entry/Exit Requirements

Entry and exit requirements are for aircraft departing the United States non-stop to country of destination. These requirements do not include any technical stops. Please refer to **Technical Stop** section in **Additional Flight Information** for the country at which the technical stop will be made.

Entry and Exit documentation forms vary from country to country. In general, however, ICAO member countries will accept the following standard ICAO Annex 9 Entry/Exit documents:

- ➔ General Declaration
- ➔ Passenger Manifest
- ➔ Cargo Manifest
- ➔ Embarkation/Disembarkation Card

- Certificate of Residual Disinsection

Examples of these documents can be found at [/FIM Home>General Information>International Flying Overview> ICAO Annex 9 Entry/Exit Documents](#). The acceptance of these ICAO documents must be confirmed by the appropriate AIS.

Entry Requirements (Departing the U.S.)

- File an [eAPIS](#) manifest outbound (recommend inbound at this time too)
- File and activate international flight plan
- Land at a designated airport of entry (AOE) – customs and immigration

The following entry documents are required:

Passengers –

- Valid passport
- [Visa](#) (U.S. citizen visitors are granted 90 days of stay without a visa within a given six-month period)
- Valid Vaccination Certificates - based on [WHO](#) requirements

Pilots – Same as passengers

Note: Other pilot/crewmember requirements may be applicable in lieu of those stated. Contact appropriate AIS for further clarification prior to flight.

Aircraft –

- General Declaration
- Passenger Manifest
- Cargo Manifest

Note: Quantities and distribution are not indicated in the Romania AIP

Exit Requirements (Departing Romania)

- Depart from an AOE
- Same aircraft documents as required for arrival
- File [eAPIS](#) manifest if inbound to the U.S.
- File an international flight plan
- Call U.S. Customs at filed U.S. airport of entry

Additional Flight Information

Aircraft Instruments and Equipment

In addition to U.S. aircraft airworthiness and 14 CFR Part 119 certification requirements, most countries adhere to ICAO Annex 6 which defines aircraft instruments, equipment and documents. Exceptions or additions to those rules are listed below for reference only.

Aircraft operating in Romania are subject to the FM immunity requirements for VHF receivers specified in the Standards of ICAO Annex 10, Vol I, Sections 3.1.4 (ILS), 3.3.8 (VOR) and Vol III, Part II, Section 2.2.3 (Voice Communication).

Aircraft operating on the ATS routes within BUCUREȘTI FIR shall be equipped with, as a minimum, B-RNAV certified equipment meeting RNP 5.

The carriage and operation of 8.33 kHz channel spacing radio equipment is mandatory throughout the ICAO EUR Region for aircraft operating above FL195.

Commercial air transport aircraft operating in Romania shall adhere to the provisions of ICAO Annex 6 - *Operation of Aircraft, Part I - International Commercial Air Transport - Aeroplanes*, Chapter 6 (Aeroplane Instruments, Equipment and Flight Documents) and Chapter 7 (Aeroplane Communication and Navigation Equipment).

ICAO Documents can be purchased from ICAO at: <http://store1.icao.int/>

Technical Stop / Overflight

General Aviation –

International flights classified as civil general aviation operations in transit non-stop across the territory of Romania and/or with stops for non-traffic purposes are considered as authorized provided a flight plan has been filed for the respective flights; the aircraft used are insured for damages caused to third parties on ground.

Non-scheduled Flights –

International scheduled flights, performed by civil aircraft registered in another State, in transit nonstop across the territory of Romania and stops for non-traffic purposes, are considered as authorized provided a flight plan has been filed for the respective flights on a published ATS route, the aircraft used are insured for damages caused to third parties on the ground, and, in case of stops for non-traffic purposes they are performed to an international airport.

Non-scheduled Flights (Charters)

Non-scheduled carriers must comply with the insurance requirements set out in Regulation (EC) No 785/2004 of the European Parliament and of the Council of 21 April 2004 on insurance requirements for air carriers and aircraft operators.

Unless the international agreements to which Romania is party provide otherwise, the application for flight authorization shall be submitted:

At least two (2) working days before the date of the first flight, if the number of flights is less than three (3) within 14 days,
At least seven (7) working days before the date of the first flight, if the number of flights is four (4) or more within 14 days.

The application shall be submitted to the below mentioned address:

Romanian Civil Aeronautical Authority (RCAA)
Overflight Department
Sos. București-Ploiești nr. 38-40
Sector 1, Cod 013695, București

Tel: +40-(0)21-208.15.00
Fax: +40-(0)21-208.15.83

AFTN: LRBBYR
SITA: BUHTOYA

EMAIL: overflight@caa.ro

Arrival/departure slots shall be applied for and obtained from the airports involved by the operator of the aircraft before submitting the application for flight authorization.

Private Flights

International flights classified as civil general aviation operations with landings/takeoffs within the Romanian territory are considered as authorized provided a flight plan has been filed for the respective flights; the aircraft used are insured for damages caused to third parties on ground.

Float Planes

The IFIM Staff is not aware of any Float Plane requirements or restrictions.

Light Sport Aircraft

The IFIM Staff is not aware of any Light Sport Aircraft requirements or restrictions.

Fees

Users should anticipate varying fees for landing, lighting, parking, passenger service, airport security and air navigation charges.

Fuel

Jet A1 is available at all AOE's but may be limited in supply.

AvGas is available at some AOE's. Check with appropriate airport authority for more information.

Night VFR

Night VFR flights are permitted as uncontrolled flights, except when constituting aerodrome traffic at aerodromes designated as airspace class D.

Night VFR flights are permitted exclusively at:

Below FL100

Flight visibility 5 KM minimum

Ground visibility 5 KM, so far this distance is reported by an observer authorized by the Romanian C.A.A.

Night VFR flights with civil aircraft under the rule of this prescription shall be exclusively executed by holder of a valid night VFR or IFR authorization, otherwise only for training under the direct control of a competent flight instructor

Clearances for night VFR-flights shall only be demanded for flights, which can not be conducted as IFR flights.

Night VFR flights with aircraft shall be operated only as general aviation operations and only from/at aerodromes with flight information service.

Island Hopping

The IFIM Staff is not aware of any Island Hopping requirements or restrictions.
