

Federal Aviation Administration

Memorandum

Date: April 3, 2015

To: Distribution

Heather E. Hemdal

From: Heather E. Hemdal, Director, Air Traffic Standards & Procedures

Subject: Removal of HTML Files from the FAA Air Traffic Publications Website

The Department of Transportation (DOT) mandated that all of its public-facing websites be 508-compliant (universally accessible) by March 31, 2015. The HTML pages hosted on our FAA Air Traffic Publications website, at http://www.faa.gov/air_traffic/publications, were not compliant and had to be removed.

The PDF versions of all impacted HTML files will remain online and we ask that you defer to those until further notice.
