

## **Morocco**

### **Notice**

All travelers are advised to exercise a high degree of caution in Morocco because of the threat of terrorist attack against Western interests. Pay close attention to your personal security at all times and monitor the media for information about possible new safety or security risks.

There is a risk of retaliatory attacks against Western targets in Morocco following the French intervention in the conflict in Mali in January 2013.

We have received reports that terrorists are planning attacks against a range of targets, including places frequented by foreigners. Tourist areas have been attacked in the past. On 28 April 2011, there was an explosion in a restaurant in Jamaa el-Fna square, Marrakesh. A number of people were killed, including foreigners.

There is a general threat of kidnapping against Westerners in North Africa. You should maintain a high level of vigilance at all times and especially when travelling in southern and border areas of Morocco.
