

Oman

Notice

There is an underlying threat from terrorism. Attacks, although unlikely, could be indiscriminate, including in places frequented by expatriates and foreign travelers.

Terrorists continue to issue statements threatening to carry out attacks in the Gulf region. These include references to attacks on western interests, including residential compounds, military, oil, transport and aviation interests. You should maintain a high level of security awareness, particularly in public places. You should avoid all protests and demonstrations as they may turn violent.

Pay close attention to your personal security and monitor the media for information about possible new safety or security risks.
