

Qatar

Notice

All travelers are advised to exercise a high degree of caution in Qatar because of the threat of terrorist attack against Western interests.

Terrorists have demonstrated the intent and capability to conduct attacks throughout the Arabian Peninsula at places frequented by Westerners, such as commercial and public areas. Further attacks may be planned and could occur in Qatar.

Statements by international terrorists have called for attacks against Western interests in the Gulf region, including residential compounds, military, oil, transport and aviation interests.

You should maintain a high level of security awareness, particularly in public places. Avoid large gatherings and demonstrations.
