

SWIM Users Forum – Session # 6

Federal Aviation
Administration

By: SWIM Program Office
To: SWIM Consumers
Date: August 13, 2015

User Forum Logistics

- **Date:**
 - August 13, 2015 - 2:30 pm – 4:00pm
- **Location:**
 - Noblis Lakes Conference Rm – A&B
- **Go-to-Meeting: Please register for “SWIM Users Forum” at SWIM Website:**
- http://www.faa.gov/nextgen/programs/swim/users_forum/, <http://1.usa.gov/1HyD6SW>
- **User Forum briefing distributed via invitation & on SWIM website**
(www.faa.gov/nextgen/programs/swim/user-forum)

Agenda

- **User Forum Overview & Program Updates**
 - Joe Lahoud/Chris Pressler
- **Active MQ Update**
 - Chris Pressler
- **NSRR Refresher**
 - Brian Love
- **ASSC Waterfall Schedule**
 - Brian Love
- **TAIS Update**
 - Julia Korey
- **SWIM 90 day Calendar**
 - Joe Lahoud/Chris Pressler
- **Open Discussion – All**
 - Online survey link at the end of the briefing

SWIM Users Forum - Overview

- **Purpose:** Monthly forum for SWIM Users to obtain program updates, provide feedback, obtain answers to SWIM related questions or data concerns
- **Scope: SWIM Portfolio of Services**
 - Aeronautical Data
 - Flight and Flow Data
 - Weather Data

SWIM Users Forum - Overview

- **Forum Participation:**

- NAS and non-NAS consumers

- Airlines, Industry service providers, research & development, FAA Programs, Airports
- Average 70 – 90 attendees: 1st three sessions

- **SWIM Resources:**

- SWIM website: <http://www.faa.gov/nextgen/programs/swim/>
- NSRR: <https://swimrep.faa.gov/soa>
- SWIM Help Desk:
 - **1-855-FAA-NEMC** (855-322-6362)
Option #3, “Enterprise Services” for phone support
 - NEO-ES@faa.gov for email support

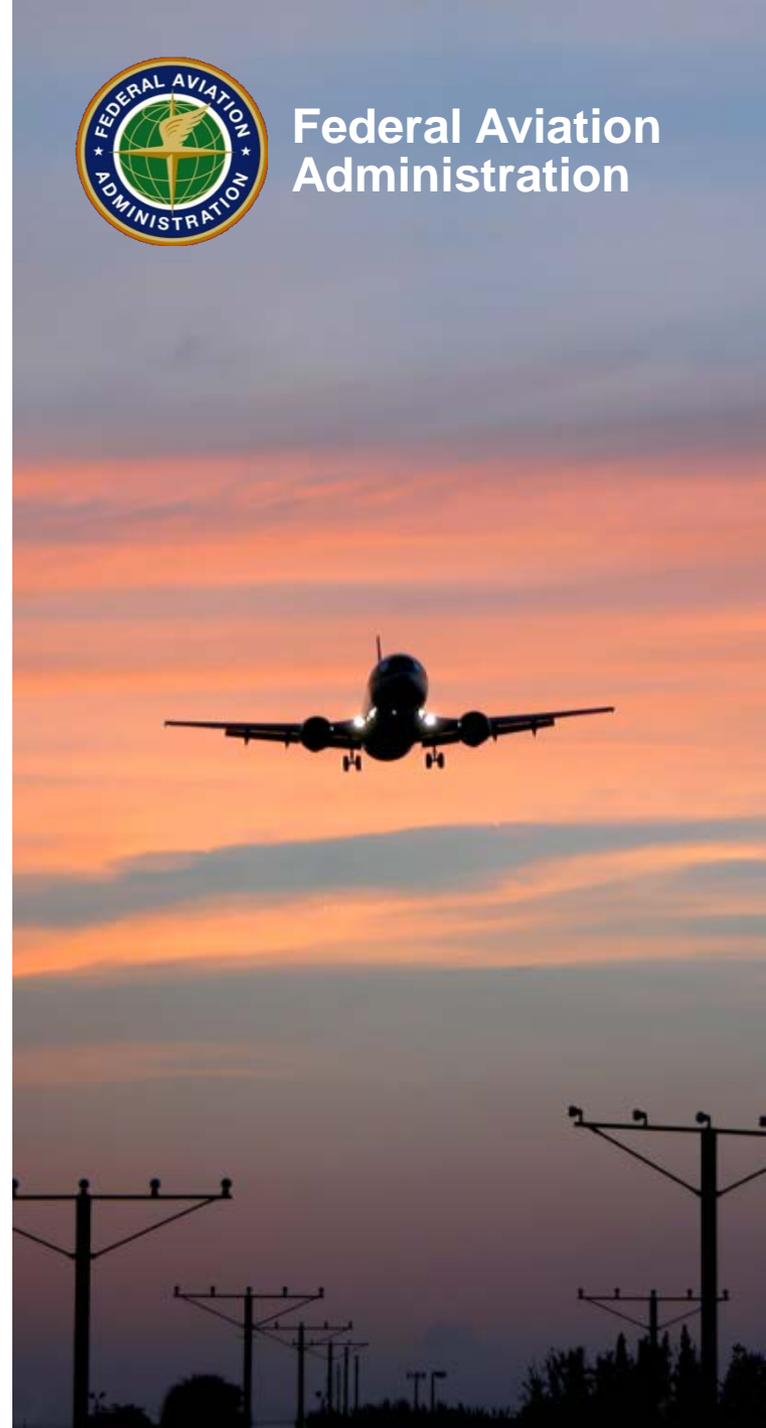

Notice to External consumers of FAA data sets via SWIM

Chris Pressler
Lead Engineer, SWIM Program
chris.pressler@faa.gov

Federal Aviation
Administration

Notice

- The FAA has an approved list of JMS Client implementations versions for use by external consumers of FAA data sets via SWIM.
- The FAA will be notifying all *external consumers of FAA data sets via SWIM* to ensure that only that only an approved JMS Client implementation version is used to connect to SWIM.
- External consumers of FAA data sets via SWIM that do not comply with the notice will be disconnected from SWIM after a pre-determined time.

FAA approved JMS Client implementation versions

Vendor	JMS Client Implementation	Version
Oracle	WebLogic 11g	10.3.5.0
FuseSource	ActiveMQ	5.5.1
Solace	Solace	7.1.0.207

Notice (cont.)

- **External consumers of FAA data sets via SWIM may NOT change between JMS Client implementation vendors.**
- **There is no requirement to perform R&D testing or FNTB verification activities if the JMS Client implementation version is changed.**
- **External consumers of FAA data sets via SWIM may contact the FAA Enterprise Service Desk representatives or the assigned SWIM Point of Contact as described in the Notice.**

NSRR Update

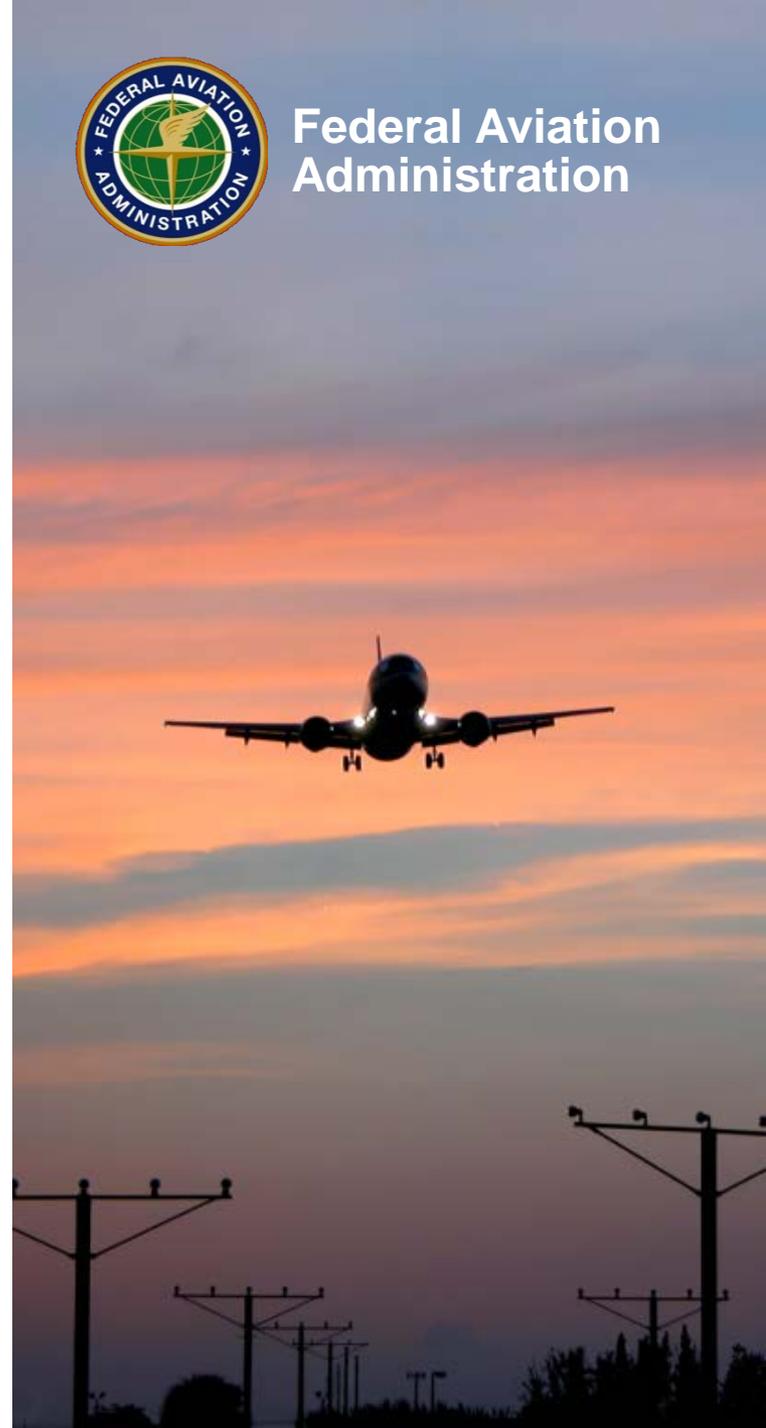

Brian Love

Engineer

Brian.Love@flatironssolutions.com

Federal Aviation
Administration

NSRR

- **NAS Service Registry/Repository**
- **URL: <https://swimrep.faa.gov/soa>**
- **Request an Account**
 - Affiliation:
FAA Business Partner, FAA Contractor, FAA
 - Access Type:
Read-Only, Provider, Consumer
- **Account created within 2 business days**

STDDS NSRR Demo Preview

- **NSRR Service Catalog Browser**
 - Filtering
 - Favorites
 - Lifecycle Stage
- **5 STDDS Service Catalogs**
 - STDDS Airport Data
 - STDDS Infrastructure System Monitor and Control
 - STDDS Surface Movement Event
 - STDDS Terminal Automation Information
 - STDDS Tower Departure Event

STDDS NSRR Demo (cont'd)

- **STDDS Services Documentation**
 - Generally the same for all 5 services
 - TAIS is still in Development stage
 - Currently about ~~43~~ 15 documents
 - Some oriented towards FAA needs/processes
 - Others oriented towards service consumers
- **General service documentation**
 - STDDS Site Data Availability.xls (updated)
Table showing which airports supply which STDDS data
 - NEMSTopicClient_v1.02.tar.gz
Sample client code

STDDS NSRR Demo (cont'd)

- **New STDDS R3.2 documentation:**
 - STDDS R3.2 Release Notes.docx
Provides brief details on R3.2 changes
 - Draft-stdds-r3.2-schemas-20150511.zip
All STDDS R3.2 XML message schemas (XSDs)
 - Draft <svc> JMSDD.docx
Textual details of R3.2 messages
 - <svc> Sample Data R3.2.zip

STDDS NSRR Demo (cont'd)

- **Old STDDS R3.1 documentation:**
 - STDDS_WSDD_R3.1.docx
Web Service Description Document, provides details of the XML messages and their data elements
 - STDDSExternalInterfaces.zip
The XML message schemas (XSDs), for R3.1

ASSC Waterfall Schedule

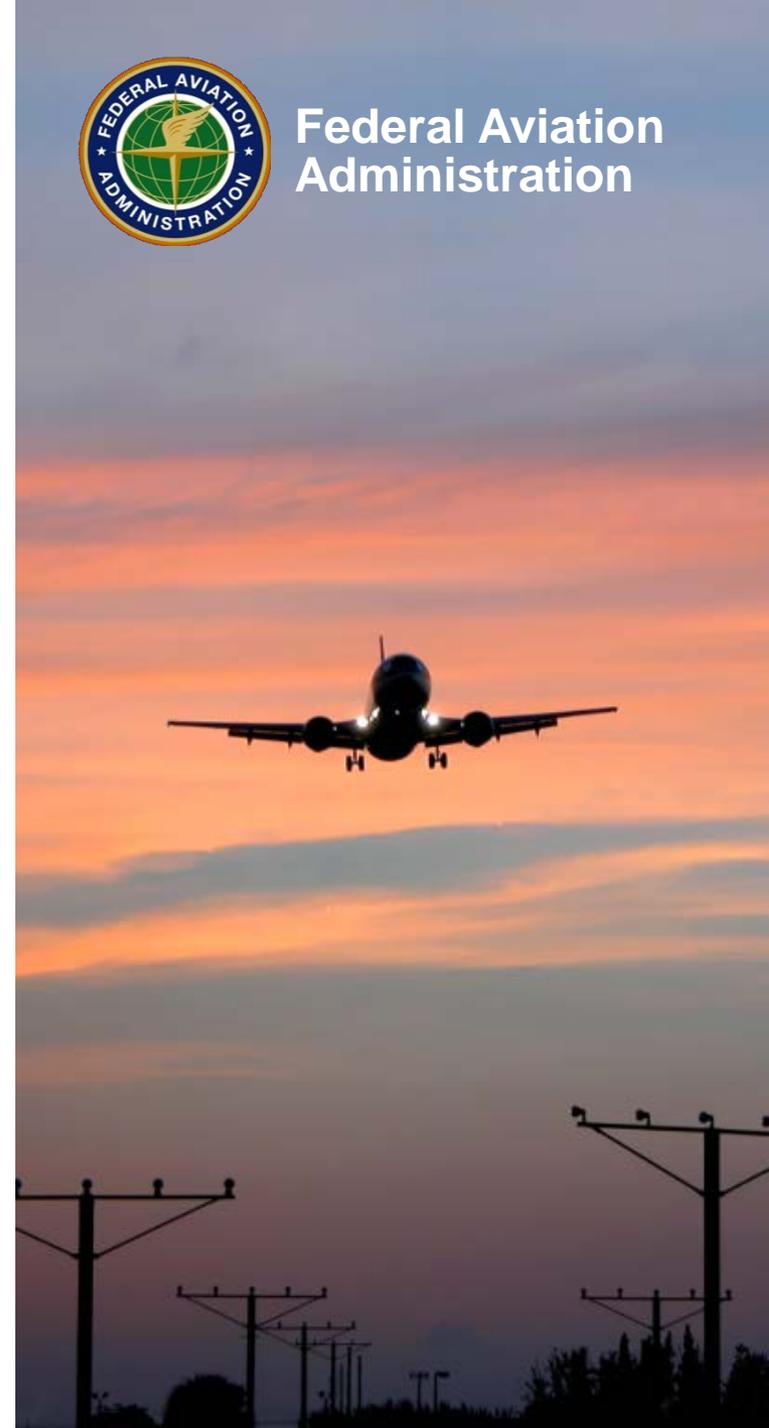

ASSC Site	Target STDDS data publication
SFO	June 2014
CLE	October 2015
MCI	December 2016
CVG	April 2017
PIT	February 2018
PDX	March 2018
MSY	April 2018
ANC	November 2018
ADW	TBD

TAIS Update

Julia Korey
Systems Engineer
Julia.Korey@flatironssolutions.com

Federal Aviation
Administration

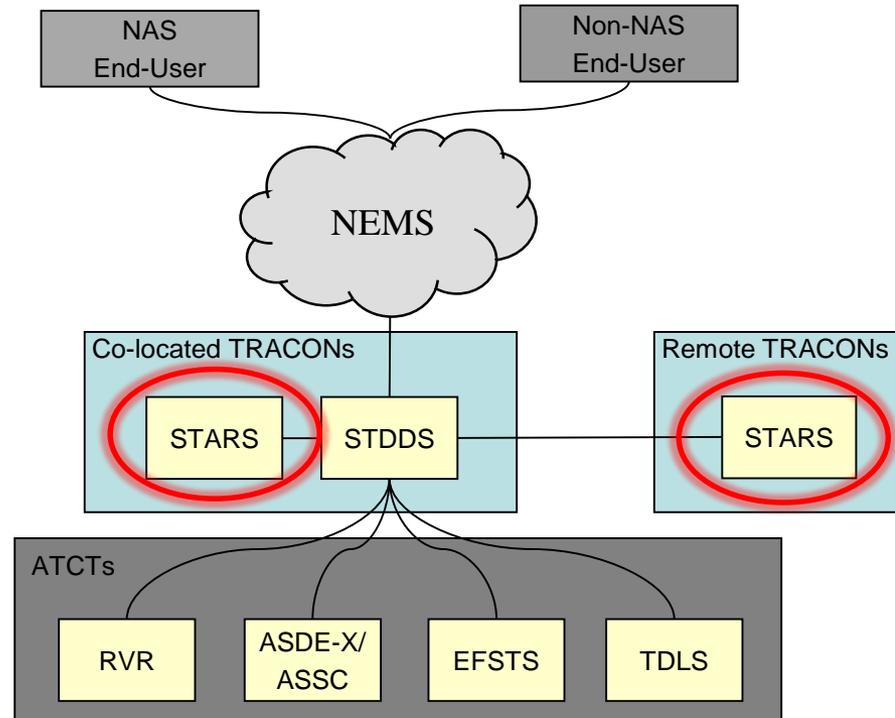

STDDS TAIS Overview

- **STDDS will subscribe to the GeNUS interface and receive all 7 AIG messages**
- **The STDDS Terminal Automation Information Service will publish STARS data in XML via NEMS/NESG**
- **All G4/ELITE STARS sites will be supported by STDDS**
 - G1/G2 sites will be temporarily supported until converted to G4/ELITE
 - ARTS sites will not be supported until they are upgraded to STARS
- **A total of 156 STARS sites will be supported**
 - 105 sites to be deployed FY16, in STDDS 3.2
- **First key site (Y90) is scheduled to be deployed in early January 2016; Second is NCT February 2016**
- **Waterfall deployment begins Summer 2016**

STDDS Context Diagram

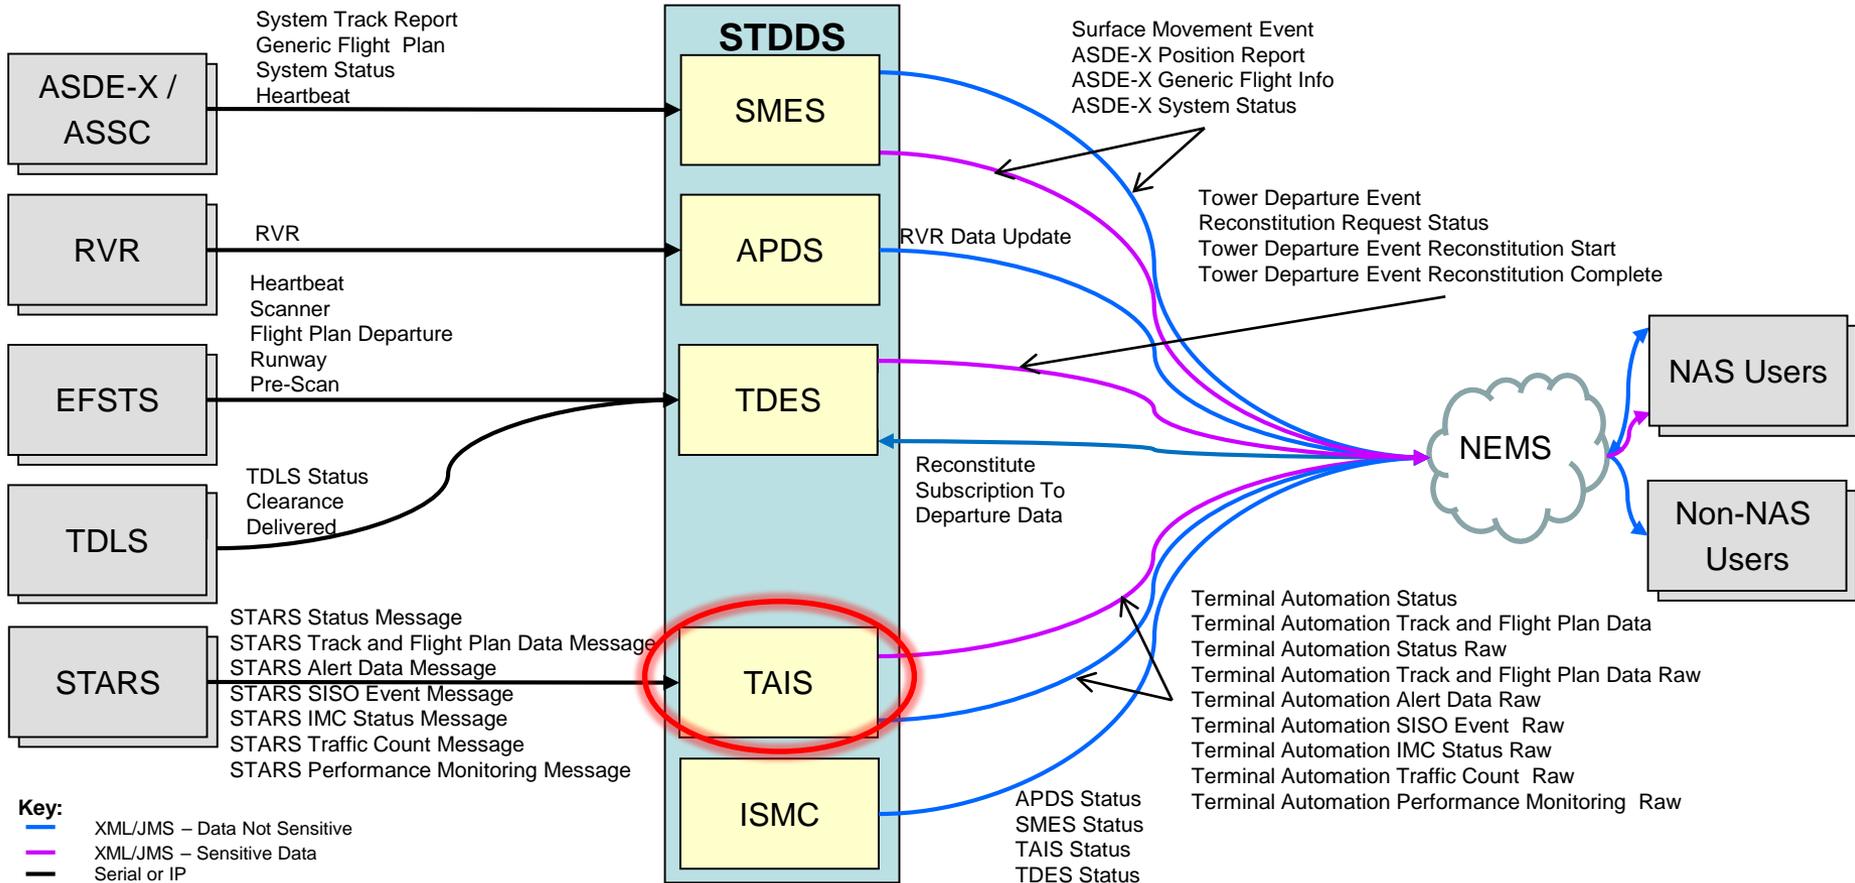

Acronyms:

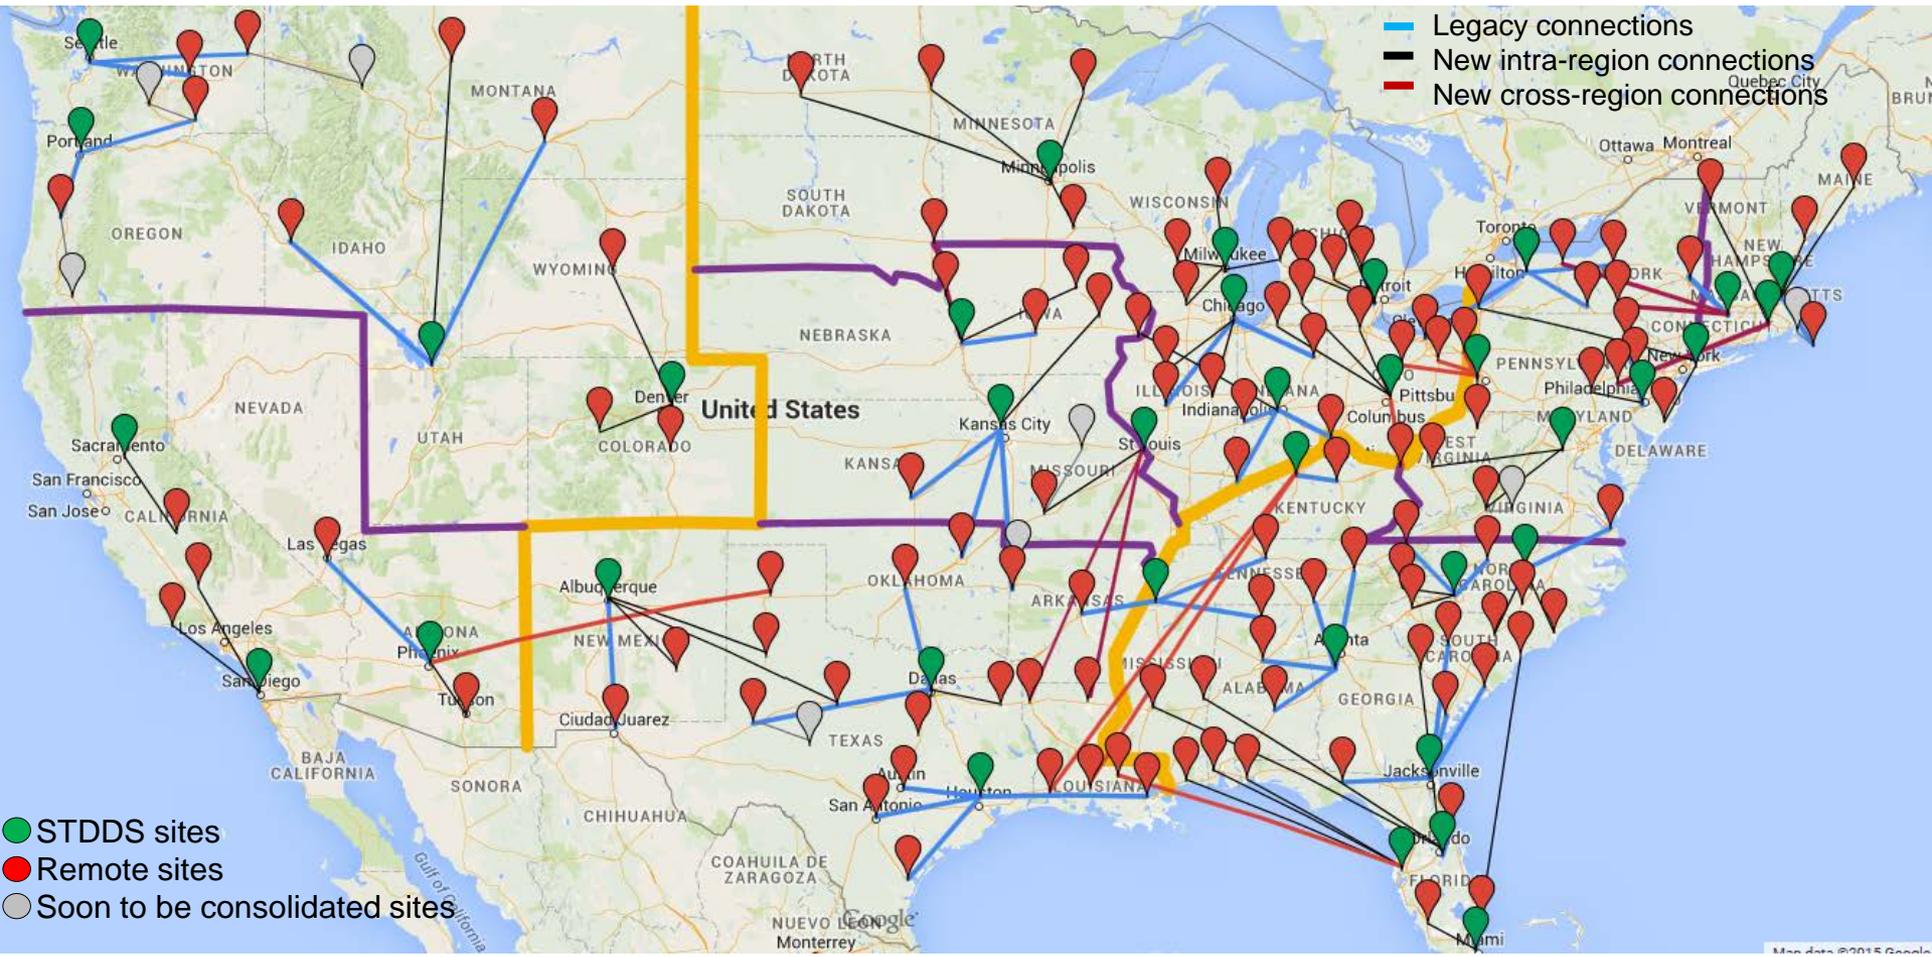

ASDE-X – Airport Surface Detection Equipment Model X
 ASSC – Airport Surface Surveillance Capability
 ATCT – Air Traffic Control Tower
 EFSTS – Electronic Flight Strip Transfer System
 NAS – National Airspace System

NEMS – NAS Enterprise Messaging Service
 RVR – Runway Visual Range
 STARS – Standard Terminal Automation Replacement System
 STDDS – SWIM Terminal Data Distribution System
 TDLS – Tower Data Link Services
 TRACON – Terminal Radar Approach Control

STDDS Data Flow

STARS to STDDS connections

TAIS Message Format

- All messages are in XML format and have a header and a body/payload.
- The header for all messages contains the following properties:

Data Element	Description
Message Type	Defines the type of message.
Version	Version number of STDDS schema.
Timestamp	UTC date and time of STDDS message generation.
TRACON ID	FAA Location Identifier (three alphanumeric characters) of the STDDS producer.
Source TRACON ID	FAA Location Identifier (three alphanumeric characters) of the data source.
Send To	Authorization flag. Possible values: “authorized”, “filtered”, and “all”.

TAIS Messages

AIG Message ID	Msg Type	Sensitive Data Classification	Resulting Published Message	Format
AIG100	ST	Not Sensitive	TerminalAutomationStatus	Parsed XML
AIG200	FP	Filtered	TerminalAutomationTrackAndFlightPlanData	Parsed XML
AIG300	AR	Sensitive	TerminalAutomationAlertDataRow	XML wrapped binary
AIG500	SI	Sensitive	TerminalAutomationSISOEventRaw	XML wrapped binary
AIG502	IR	Not Sensitive	TerminalAutomationIMCStatusRaw	XML wrapped binary
AIG510	CR	Sensitive	TerminalAutomationTrafficCountRaw	XML wrapped binary
AIG700	PR	Sensitive	TerminalAutomationPerformanceMonitoringRaw	XML wrapped binary

Relevant STDDS Documentation

- **R3.2 TAIS JMSDD (NSRR, draft)**
- **R3.2 STDDS Schemas (NSRR)**
- **TAIS Sample data (NSRR)**
- **STDDS R3.2 Release notes (NSRR)**

AIG200: Track and Flight Plan Message

The AIG200 is in parsed XML format

Key Flight Plan Data

- Aircraft ID
- Aircraft type
- Entry/exit fix/airport
- Flight rules
- Flight status
- ARTCC computer ID
- Scratchpad data

Key Track Data

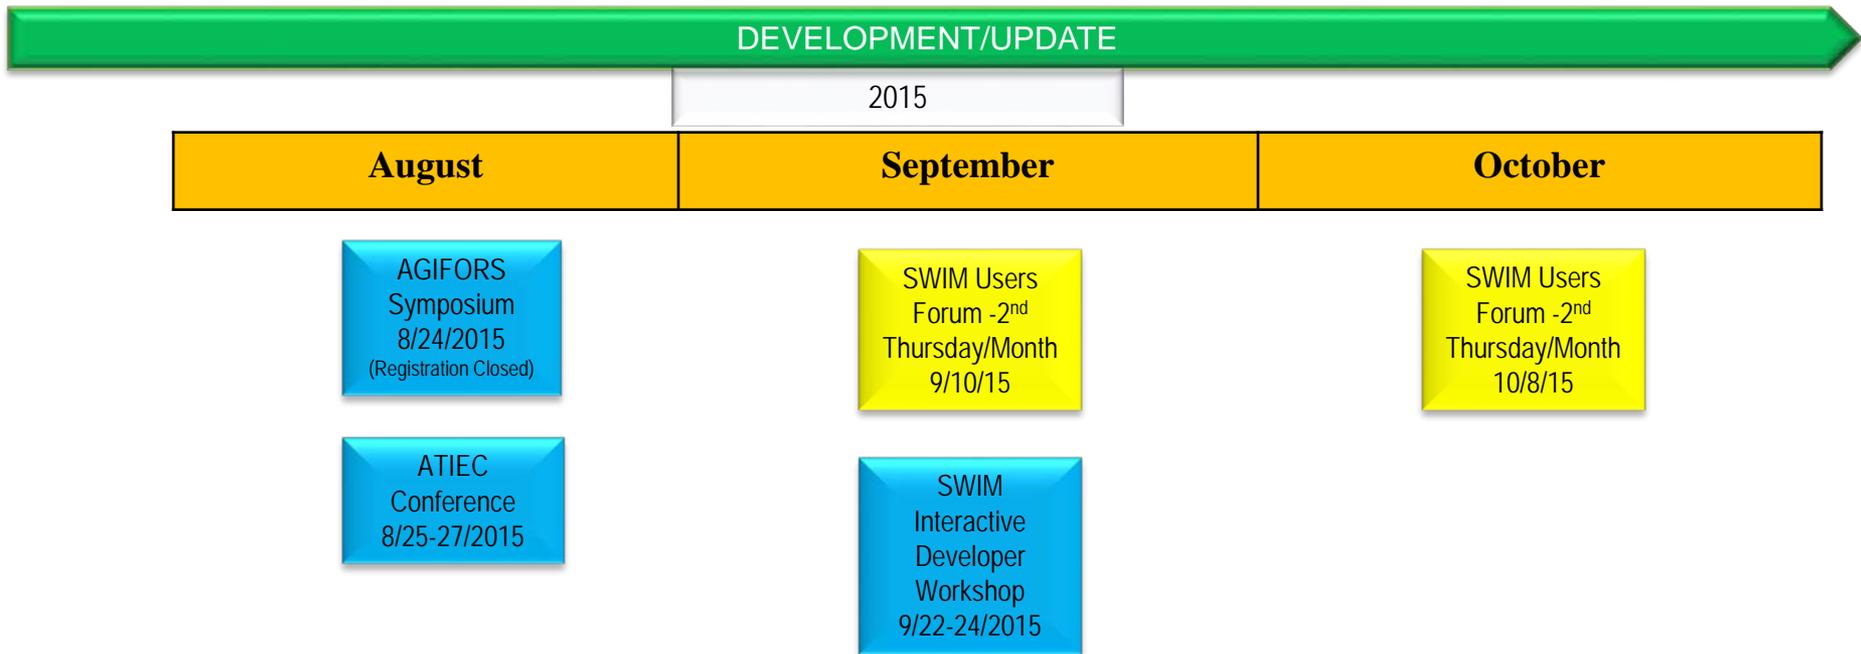

- Source TRACON
- Track number
- Aircraft address
- Aircraft position (x,y)
- Reported beacon code
- Reported altitude
- ADS-B/ICAO address (when avail)
- Handoff information

TAIS On-Ramping

- **Contact EES @ data-to-industry@faa.gov**
- **Test data expected on R&D network Fall 2015**
- **Deployment Summer 2016**
- **TAIS data is relatively large, average 380 Kbps, variable by site (275 Kbps – 2622 Kbps)**

Schedule – 90 days

Thank you for joining us!
