<b>Generic VI</b>			
1	Existing Policies and Emerging Issues	Part 33	Various existing policies and other new and emerging issues may be identified as Generic VI.

Notes:

- 1) The above noted items are generic potential VI's based on regulation text differences between the identified airworthiness codes. Interpretive material differences did not affect these findings, and are therefore not referenced.
- 2) For individual projects, some of these VI's may be deleted or additional VI's may be added dependent upon familiarization with the actual product design, certification basis and specific Methods of Compliance.
- 3) This TVP VI List revision addresses recent rulemaking under 14 CFR Part 33 Amendments 25 through 30, and is applicable to any Amendment pair from Part 33 Amendment 25 through 30, versus CS-E Amendment 2.
