Michael Vaupell, AFS-410E	6/5/26	34-8	34-44-00-20-A	Typo in this item's remarks that may lead to confusion. "One may be inoperative on the Pilot Not Flying pilot side."	Replace with text from MMEL Policy Letter 32, or similar, "May be inoperative on non-flying pilot side."	Partially concur. Will change the language to read, "Pilot Not Flying side." The net effect is to strike the second "pilot." This language is used elsewhere in this MMEL and in numerous other Falcon MMEL's. This language is also consistent with the acronym PNF which is common in the industry.
