Appears to include a procedure that should be captured as an (M) or (O) procedure.	Add (M) to the beginning of the statement in the Remarks or Exceptions collum. Matthew Spawn AFS-410B	8/21/25	PDF 12 Pg. 25-1	2500-01 1) b)	Relief item (M) procedure reads "Seat Belt...May be inoperative or disconnected provided seat belt operates normally."  The relief statement seems to contradict itself.  Is "Air Bags" missing from this item?	Re-word to remove contradiction or remove the statement all together and apply the same relief as 2500-01 1) a).  The root of this discrepancy may be with the Seat Belt/Air Bags line on page V Guidelines for (M) and (O) Procedures (PDF Page 6).	Nonconcur – is listed as required by PL-79 Rev 9.	
Matthew Spawn AFS-410B	8/22/25	PDF 13 Pg. 26-1	2622-01	Remarks or Exceptions column contains instructions for covering or removing placards. Matthew Spawn AFS-410B	8/21/25	PDF 18 Pg. 33-1	3310-01 Note 2	The TCDS does not mention NVG operations.  It may be appropriate to omit this relief note so there are no possible future conflicts with the aircraft's NVG STC.	Remove note 2 and rely on the Aircraft's NVG STC to provide those conditions and limitations.	Nonconcur – is listed as required by PL-77 Rev 4.  This is unaided operation relief for military NVG supplement lighting that may be installed.
