Mr. Chip Erwin  
Aeromarine Consulting Inc.  
207 Rosana Drive  
Brandon, FL 33511

Dear Mr. Erwin:

The Federal Aviation Administration (FAA) National Kit Evaluation Team (NKET) completed an evaluation of the Aeromarine Zigolo MG12 Ultralight Motorglider kit at your facility on March 26, 2014. The Aeromarine Zigolo MG12 kit is defined by the Aviad Drawing Revision List, Revision "A" Dated 6/20/2013. The team determined that this kit may allow an amateur builder to meet the major portion requirement of title 14, Code of Federal Regulations part 21, Certification Procedures for Products and Parts, § 21.191 (g).

We will advise the Aircraft Certification Service Certification Procedures Branch to add this kit to the Revised Listing of Amateur-Built Aircraft Kits (Kit List) located on the FAA website. This evaluation does not mean that the Zigolo MG12 aircraft or Aeromarine Consulting Inc. is FAA "*certified, certificated, or approved*" and it is inappropriate to represent either as such.

Aeromarine Consulting Inc. should notify this office in writing if ownership of the company changes and or if there are changes made to the evaluated kit that may affect its potential to meet the major portion requirement. Failure to notify this office may result in removal of the kit from the Kit List.

If you have any questions, please contact the Manufacturing Inspection Office (MIO) at (816) 329-4180

Sincerely,

James E. Jackson  
Manager, Manufacturing Inspection Office, ACE-180
