

Amateur-Built Fabrication and Assembly Checklist (2011) Gyroplane

Name(s): Tim Adelman, Chesapeake Sport Pilot

Address: 210 Airport Road, Stevensville, MD

Aircraft Model: Auto Gyro, Calidus

Date: July 2, 2013

Remarks: Agent for AutoGyro GmbH

NOTE: This checklist is only applicable to Gyroplane aircraft. Evaluation of other types of aircraft (i.e., Fixed Wing, Weight Shift Control, Balloons, Lighter than air) will not be accomplished with this form.

NOTE: This checklist is invalid for and will not be used to evaluate an altered or modified type certificated aircraft with the intent to issue an Experimental Amateur-built Airworthiness Certificate. Such action violates FAA policy and DOES NOT meet the intent of § 21.191(g).

Instructions For Using The Amateur-Built Fabrication and Assembly Checklist (2011):

A point (each task equals 1 point) can be divided over multiple categories (Manufacturer, Commercial Assistance, Amateur Builder Assembly and Amateur Builder Fabrication) into 1/10 fractions. A Manufacturer may be a kit manufacturer, a component manufacturer or a part(s) manufacturer. Commercial assistance (for hire or compensation) may include assistance provided by kit manufacturers, commercial assistance centers, individuals (e.g. A & P mechanics or avionics technicians).

For example, 0.5 (half point) can be assigned to the Manufacturer, 0.3 (3/10 - 3 tenths) as Commercial Assistance, 0.2 to the Amateur Builder as Fabrication, for a total of 1 point.

Enter "N/A" in any box where a listed task is not applicable to the particular aircraft being evaluated. Use the "Add item" boxes at the end of each section to add applicable unlisted tasks and award credit.

| FABRICATION AND ASSEMBLY TASKS | | A | B | C | D |
|--|--|---------------|------------|------------|-------------|
| | | Mfr Kit/Part/ | Commercial | Am-Builder | Am-Builder |
| | | Component | Assistance | Assembly | Fabrication |
| Task Airframe and Enclosure – 15 Listed Tasks | | | | | |
| A1 | 1 Fabricate Basic Airframe Structural Components (Usually Metal Frame) | 1 | | | |
| A2 | 1 Assemble Basic Airframe Structure | 0.8 | | | |
| A3 | 1 Fabricate All Airframe/Enclosure Brackets and Fittings | 0.9 | | | |

| FABRICATION AND ASSEMBLY TASKS | | A | B | C | D |
|---|---|----------------------------|--------------------------|------------------------|---------------------------|
| | | Mfr Kit/Part/ Component | Commercial Assistance | Am-Builder Assembly | Am-Builder Fabrication |
| A4 | 1 Assemble Brackets and Fittings to Airframe/Enclosure | 0 | | | |
| A5 | 1 Fabricate Enclosure (Composite or Metal Seating Area) | 1 | | | |
| A6 | 1 Assemble Enclosure | 0 | | | |
| A7 | Fabricate Enclosure Covering or Skin | N/A | | | |
| A8 | Assemble Enclosure Covering/Skin to Enclosure | N/A | | | |
| A9 | Assemble Enclosure to Next Level Structure | N/A | | | |
| A10 | Fabricate Windshield or Windscreen | N/A | | | |
| A11 | Assemble Windshield or Windscreen to Enclosure | N/A | | | |
| A12 | Fabricate Doors/Canopy and Window Components | N/A | | | |
| A13 | Assemble Doors/Canopy and Window Components to Next Level Structure | N/A | | | |
| A14 | 1 Fabricate Fuel Tank | 0.7 | | | |
| A15 | 1 Assemble Fuel Tank to Next Level Structure | 0 | | | |
| A16 | 1 Add Fab item: Fuel Lines (tank/engine) | 0 | | | |
| A17 | 1 Add Assy item: Fuel Lines (tank/engine) | 0 | | | |
| A18 | Add Fab item: | | | | |

| FABRICATION AND ASSEMBLY SUMMARY | | A | B | C | D |
|---|----------|----------------------------|--------------------------|------------------------|---------------------------|
| | | Mfr Kit/Part/ Component | Commercial Assistance | Am Builder Assembly | Am Builder Fabrication |
| 1. Total Number of Aircraft Tasks | (Note 1) | (SUM#1) | | 63 | |
| 2. Total Points for Each Category. | (Note 2) | 24.8 | | | |
| 3. Total Points for Complete Aircraft Construction (SUM # 2 should equal SUM # 1 above). | (Note 3) | (SUM #2) ► | | | |
| 4. Percentage of Each Category as Part of Total Aircraft Construction. | (Note 4) | 39.40% | | | |
| 5. Total Percentages for Complete Aircraft Construction (Add all percentages in row 4) Total should equal 100% (± . 5%). (Note 5) | | | | | |
| 6. Total Builder Points – Add points in row 2, column C and D only, together. | | | | | |
| 7. Total Builder Percentage – Add percentages in row 4, columns C and D only, together. | | | | | |

NOTES: Instructions For Completing Fabrication and Assembly Checklist Summary

1. TOTAL NUMBER OF AIRCRAFT TASKS (Sum #1): To find the total points awarded for all tasks, add together the six individual “Total # of Tasks” blocks located at the bottom left of each aircraft tasks section.

2: TOTAL POINTS FOR EACH CATEGORY: [Columns A, B, C and D]. Each columns’ total points are tallied by adding the sum of the points awarded in each respective column for each of the tasks in the section (Fuselage, Wings, Empennage, Landing Gear, Propulsion and Cockpit). Include points assigned to ‘Additional Items’ at the end of each section. Boxes with a N/A (not applicable) or an asterisk, have zero points.

3: TOTAL POINTS FOR COMPLETE AIRCRAFT CONSTRUCTION: (SUM#2) In row 3 of the Summary section, add together the numbers in each block on row2, tallied from each of the four column category totals, (Columns A+B+C+D). Compare SUM #1 to SUM #2. SUM #1 should be equal to SUM #2, (Verify the two sums are equal within a deviation of ± 0.5). Total points will vary from aircraft to aircraft depending on number of add items and N/As (Not Applicable) applied. (e.g., 133 listed task points, plus 5 Add items, minus 22 N/As = 116 tasks)

4: PERCENTAGE OF EACH CATEGORY AS PART OF TOTAL AIRCRAFT CONSTRUCTION: To compute category percentages, divide the number in each individual block found on row 2 by Sum #2 on row 3. For example if the total points of Mfr Kit/Part/Component category (Column A) = 40 and Sum #2 = 120, then divide 40 by 120 to reach 33.3%. Do this for each individual block on row 4 for each column. Percentages may be rounded to the nearest tenth, (22.86% is rounded to 22.9%).

5: TOTAL PERCENTAGES FOR COMPLETE AIRCRAFT CONSTRUCTION: Add up the percentages of each of the four categories (Columns A+B+C+D) found on row 4. Total must be equal to 100% with a (\pm) deviation limited to $\frac{1}{2}$ % (0.5%). Example; a derived percentage between 99.5% and 100.5% is acceptable. If this computation falls outside the accepted deviation then an error has occurred in row 2, 3 or 4.

6: TOTAL BUILDER POINTS: Add together the two point tallies from row 2, Columns C and D blocks only. Total will vary from aircraft to aircraft depending on number of N/As applied.

7. TOTAL BUILDER PERCENTAGE: Add together the two percentage tallies from row 4 Columns C and D blocks only. Total must exceed 50% to be eligible for amateur built status and to meet major portion requirement under 14 CFR, Part 21.191(g) Operating amateur-built aircraft.

EXPLANATIONS AND EXAMPLES

▶ All Points are added at the end of the form in the Summary section under their respective categories. The point total is comprised of all the credits awarded for primary delineated tasks plus any credits given for 'Additional Items.'

▶ "Additional Items" may be assigned points the same as primary listed tasks if work or parts not reflected in the main entries need to be credited.

▶ The applicants completion of tasks can be documented in a number of ways and may include:

- (1) Builder's logs.
- (2) Photographs/video/DVD.
- (3) Drawings.
- (4) Engineering data when necessary.
- (5) Relevant documentation (e.g., plans) and references (e.g., handbooks) used.
- (6) Documentation concerning any commercial assistance used.
- (7) Documentation concerning any non-commercial assistance used.
- (8) Part inventories and histories.
- (9) Receipts, Catalogs.
- (10) Log book entries.

In addition to using this checklist, the builder should document the entire fabrication and assembly process. To issue an airworthiness certificate the FAA must make a major portion determination (the major portion of an aircraft was fabricated and assembled by an amateur builder (s)). Making this finding requires sufficient, credible and adequate documentation.
