Ms. Daniela Knoll  
AeroSport, LLC  
Galt Airport (10C) Hangar G8  
5112 Greenwood Rd.  
Wonder Lake, IL. 60097

Dear Ms. Daniela Knoll

The Federal Aviation Administration (FAA), National Kit Evaluation Team (NKET) completed an evaluation of the BushCat kit. As a virtual evaluation on August 7, 2020 and was proceeded by a desk audit on August 20, 2020. The kit is defined by the AeroSport, LLC, assembly manual BCAM-NT-004-000, Issue 4 dated May 22, 2020. The team determined that the kit may allow an amateur builder to meet the major portion requirement of title 14, Code of Federal Regulations part 21, Certification Procedures for Products and Articles, § 21.191(g).

We will advise the Aircraft Certification Service's Certification Procedures Branch to add the kit to the Revised Listing of Amateur-Built Aircraft Kits (Kit List) located on the FAA website. This evaluation does not mean that the BushCat aircraft, or AeroSport, LLC is FAA "*certified, certificated, or approved,*" and it is inappropriate to represent either as such.

AeroSport, LLC, should notify this office in writing if ownership of the company changes, and or if there are changes made to the evaluated kit that may affect its potential to meet the major portion requirement. Failure to notify this office may result in removal of the kit from the Kit List.

If you have any questions, please contact the Southwest Manufacturing Inspection Office (MIO) Branch at (817) 222-5180.

Sincerely,

Micheal Sloat  
Aviation Safety Inspector  
NKET Team Lead
