December 19, 2017

Mr. James Wiebe  
Belite Enterprises LLC  
8610 E 34<sup>th</sup> St. North #1  
Wichita, KS 67226

Dear Mr. Wiebe:

The Federal Aviation Administration (FAA), National Kit Evaluation Team (NKET) completed an evaluation of the CH-2A Chipper kit and CH-2A Chipper Quick Build Kit, at your facility on November 14, 2017. The kit is defined by the Chipper Aircraft Bill of Materials Revision B, dated November 13, 2017 and Chipper Bill of Materials Quick Build Option, Document CH-2A-QB dated November 20, 2017. The team determined that the kit may allow an amateur builder to meet the major portion requirement of title 14, Code of Federal Regulations part 21, Certification Procedures for Products and Articles, § 21.191(g).

We will advise the Aircraft Certification Service's Certification Procedures Branch to add the kit to the Revised Listing of Amateur-Built Aircraft Kits (Kit List) located on the FAA website. This evaluation does not mean that the CH-2A Chipper aircraft, or Belite Enterprises LLC is FAA "*certified, certificated, or approved,*" and it is inappropriate to represent either as such.

Belite Enterprises LLC, should notify this office in writing if ownership of the company changes, and or if there are changes made to the evaluated kit that may affect its potential to meet the major portion requirement. Failure to notify this office may result in removal of the kit from the Kit List.

If you have any questions, please contact the Southwest Manufacturing Inspection Office (MIO) Branch at (817) 222-5180.

Sincerely,

Bruce Cain  
Manager, Southwest MIO Branch
