March 11, 2014

Mr. Harry Berndt
Just Aircraft LLC
170 Duck Pond Road
Walhalla, SC 29691

Dear Mr. Berndt:

The Federal Aviation Administration (FAA) National Kit Evaluation Team (NKET) completed an evaluation of the JA30 SuperStol and JA35 SuperStol Stretch kits at your facility on February 25 & 26, 2014. These kits are defined by the Just Aircraft, JA30 and JA35 SuperStol "Bill of Materials" dated March 11, 2014. The team determined that these kits may allow an amateur builder to meet the major portion requirement of title 14, Code of Federal Regulations part 21, Certification Procedures for Products and Parts, § 21.191 (g).

We will advise the Aircraft Certification Service' Production and Airworthiness Division to add the JA30 & JA35 SuperStol kits to the Revised Listing of Amateur-Built Aircraft Kits (Kit List) located on the FAA website. This evaluation does not mean that the JA30 & JA35 SuperStol aircraft or Just Aircraft is FAA "*certified, certificated, or approved*", and it is inappropriate to represent either as such.

Just Aircraft should notify this office in writing if ownership of the company changes and or if there are changes made to the evaluated kits that may affect its potential to meet the major portion requirement. Failure to notify this office may result in removal of the kit from the Kit List.

If you have any questions, please contact the Manufacturing Inspection Office (MIO) at (816) 329-4180

Sincerely,

James E. Jackson
Manager, Manufacturing Inspection Office, ACE-180
