Mr. John Vining  
SDPlanes USA, LLC  
Agent for SPACEK s.r.o.  
18359 Coshocton Rd.  
Mount Vernon, OH 43050

Dear Mr. Vining:

The Federal Aviation Administration (FAA) National Kit Evaluation Team (NKET) completed an evaluation of the Minisport SD-1 TGC kit at your facility on March 15, 2017. This kit is defined by the "List of SD-1 TGC 51% Airframe Kit Parts" document, dated 1/2/2016. The team determined that the kit may allow an amateur builder to meet the major portion requirement of title 14, Code of Federal Regulations part 21, Certification Procedures for Products and Parts, § 21.191 (g).

We will advise the Aircraft Certification Service's Certification Procedures Branch to add the kit to the Revised Listing of Amateur-Built Aircraft Kits (Kit List) located on the FAA website. This evaluation does not mean that the Minisport SD-1 aircraft or SPACEK s.r.o or SDPLANES USA are FAA "*certified, certificated, or approved*", and it is inappropriate to represent either as such.

SPACEK s.r.o. should notify this office in writing if ownership of the company changes and or if there are changes made to the evaluated kit that may affect its potential to meet the major portion requirement. Failure to notify this office may result in removal of the kit from the Kit List.

If you have any questions, please contact the Manufacturing Inspection Office (MIO) at (816) 329-4180

Sincerely,

Rich Warren  
Acting Manager, Manufacturing Inspection Office, ACE-180
