JUN 25 2012

Mr. Valter della Nebbia,
President
ICP Aviation North America, LLC
410 E. Chestnut
Archer City, TX 76351

Dear Mr. della Nebbia:

The Federal Aviation Administration (FAA) National Kit Evaluation Team performed an evaluation of the "Savannah-S" amateur-built aircraft kit at your facility on June 12, 2012. The team has determined that the kit, defined by the Savannah VG Builder's Manual Version I/R, dated 10/11/2011, and Parts List Version I/R, dated 10/11/2011, may allow an amateur builder to meet the major portion requirement of Title 14, Code of Federal Regulations § 21.191(g).

The Production and Airworthiness Division (AIR-200) will have the kit added to the Revised Listing of Amateur-Built Aircraft Kits located on the FAA website. This evaluation does not mean that the "Savannah-S" aircraft or ICP Aviation North American, LLC is FAA *Certified*, *Certificated*, or *Approved*, and it is inappropriate to represent either as such.

Savannah Aviation North America, LLC should notify this office in writing if ownership of the company changes or if there are changes made to the evaluated kit. Failure to notify this office may result in removal of the kit from the List of Amateur-Built Aircraft Kits.

If you have any questions, please contact the Evaluation and Special Projects Branch, AIR-240, at (202) 385-6346.

Sincerely,

Brian Cable
Manager, Evaluation and Special Projects
Branch
