<b>Total Number of Covered Airports</b>						<b>40</b>		

(1) These dates reflect original plans or plan updates whether based on time or triggering events.

(2) Some airports that are not covered in FY2022 may have been covered in prior years.

(3) "Only when triggered" means that the covered airport has met its requirement for an initial plan and two updates. Further updates would only be required when the airport has a triggering event either an airport executes a new master lease and use agreement, or significantly amends a lease and use agreement, including an amendment due to use of Passenger Facility Charge financing for gates or an airport files a competitive access report as required by 49 USC § 47107(s) stating it had denied access to an air carrier for gates or facilities within the last six months.

(4) Locations with due dates shown have or will be notified individually of the filing requirement.

(5) HOU approval occurred on or about this date (corresponding historical document not currently available).
