

AGL/FAA
J.M.C. 9/20

September 19, 2016

President Barack Obama
1600 Pennsylvania Avenue
Washington, DC 20500

Dear President Obama

We were so happy when you closed the first diagonal runway and built a new east-west parallel runway. We thought this would alleviate some of the plane noise we have endured for 35 years, we even wrote a thank you letter to the FAA for this. We have tolerated the noise all these years and done what everyone else is complaining about now—close windows, turn up TV, stop talking inside and outside until the planes were past our home.

Well, we have gotten a big surprise since the new parallel runway opened and the night rotation started. It seems the planes takeoff going directly west, but then they make a **VERY HARD TURN GOING RIGHT OVER OUR HOUSE !!!!** We like to be outside as much as possible in the summer and it is a real event now. There are planes going in EVERY DIRECTION over us—east to west, west to east, north to south, south to north, and on all angles all within minutes of each other. There are times there are 4 planes over our house at one time and we are 18 miles northwest of O'hare airport. We are now dreading when the other parallel runway is finished.

It is apparent, the new runway plans were not thought out thoroughly and all communities around the airport were not taken into consideration.

So how is O'hare airport (Chicago, the FAA, Illinois politicians, and the President who is from Illinois) going to remedy this situation? Apparently O'hare thinks all the taxpayers are going to just accept this situation and continue to suffer. Therefore, it is apparent that it is up to the taxpayers to vote differently for all future elections and keep voting for different people until they get it right for the taxpayers. Are you trying to drive all residents out of northern Illinois, condemn properties, eliminate towns around O'hare? This doesn't sound like a good plan, no people, no towns, no tax, NO AIRPORT. How sad!

Please help all residents with this situation.
Thank you
