Arlington Heights, IL 60005

Dear Mayor Mulder,

In our letter to you dated February 26, 2009, we made a commitment to provide you with data concerning night time operations on O'Hare Runway 9L/27R on a monthly basis.

During the month of June 2010, there were no nighttime operations on Runway 27R and Runway 9L was used for twelve arrivals and six departures between the hours of 10:00 p.m. and 6:00 a.m.

Twelve arrivals and six departures occurred on June 6 and June 7 and were performed by an FAA Flight Inspection (general aviation) aircraft. The aircraft flew several approaches and departures inspecting the electronic instrumentation on the west end of the runway. We are required to perform these inspections on a periodic basis and perform them overnight to minimize impacts to airport operations.

If you have any further questions, please feel free to contact me.

Sincerely,

Barry D. Cooper  
Regional Administrator  
Great Lakes Region
