Dear Mayor Mulder,

In our letter to you dated February 26, 2009, we made a commitment to provide you with data concerning night time operations on O'Hare Runway 9L/27R on a monthly basis.

During the month of November 2010, Runway 27R was used after 10:00 p.m. on two separate days. One arrival occurred on November 22, 2010 at 10:33 p.m. Severe thunderstorms that evening caused airport delays. Runway 27R was kept open past 10:00 p.m. to accommodate the traffic.

Four operations occurred November 9, 2010 on Runway 27R between the hours of 10:09 p.m. and 10:18 p.m. Those operations were performed by a Federal Aviation Administration Flight Inspection (general aviation) aircraft inspecting electronic instrumentation on the runway. These occasional inspections are performed at these times to minimize impacts to airport operations.

If you have any further questions, please feel free to contact me.

Sincerely,

**Original Signed by**  
**Joyce B. Scott**
