
U.12 CITY OF CHICAGO COMMENT POSTCARDS

The City of Chicago prepared pre-printed comment postcards in support of the O'Hare Modernization Program that were available to passengers in various locations throughout the airport during the development of the EIS. The FAA notes that several of the comment cards were mailed in blank; these cards have been included although no commenter is associated with these cards. The opinions expressed by commenters on the following postcards are noted.

Although a majority of the comment cards were in support of the project, some cards expressed opposition to the project. Comment cards in opposition to the project, included on the pages **U.12-1** through **U.12-24**, were responded to individually by directing commenters to appropriate topical responses that can be found in **Section U.5** of this appendix.

The remaining comment cards expressed a favorable or supportive opinion of the project and are included on pages **U.12-25** through **U.12-308**. Many commenters cited delays and congestion at O'Hare as their reason for support, while others mentioned the positive economic benefits. In response, the FAA directs the commenters to **Section U.5** of this appendix, specifically topical responses **B-2**, **F-5** and **M-4**.

The FAA has also redacted addresses (where requested) and obscene language by drawing a dark line through this language. The original, unredacted versions, are available for inspection.

This page was intentionally left blank.

Dear Mr. MacMullen:

I support the O'Hare Modernization Program because...

NO, you are spending alot of tax payers money - it needs to stop somewhere!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

1	Pursuant to Executive Order 13045, <i>Protection of Children from Environmental Health Risks and Safety Risks</i> , Federal agencies are directed, as appropriate and consistent with the agency's mission, to make it a high priority to identify and assess environmental health risks and safety risks that may disproportionately affect children. Agencies are encouraged to participate in implementation of this Order by ensuring that their policies, programs, activities, and standards address disproportionate risks to children that result from environmental health risks or safety risks. Please see Section 5.4 of the EIS for further information.

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

EMAIL: cdanz@skadden.com

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

E-MAIL:

Dear Mr. MacMullen:

I support the O'Hare Modernization Program because...

we need more runways to handle excess traffic. As a result, the number of flights each day will be restored. We need to lengthen and widen existing runways. O'Hare is our airport. We already have a major airport in place. The idea of a "third airport" is ignorant thinking and a political hoax.

I also think the way the City of Chicago DOA runs O'Hare is a joke, things don't get fix until its to late, signs in T5 tell people United Express is in T1 and Qantas and National are still flying out of T2 A bigger O'Hare will just give them more to screw up. All though the friends of the Mayor will get

Dear Mr. MacMullen:

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

2/28/5 I FLY QUITE A BIT THROUGH O'HARE
Dear Mr. MacMullen:

I support the O'Hare Modernization Program because...

The three big delays at O'Hare are (a) lack of runways coming home (b) long delays on takeoff - no runway and (c) goofy security lines. The first two would be improved by reconfiguration allowing O'Hare to function as it should. The last one is just improved management.

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen,

I support the O'Hare Modernization Program (OMP) because it will significantly reduce delays and generate billions of dollars in economic activity. The City of Chicago's plan will reconfigure O'Hare's existing, intersecting runways into a more efficient parallel configuration. Reduced delays will have a positive impact on the entire country.

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Doing nothing at O'Hare is not an option. The FAA needs to move forward and approve this plan as soon as possible. The sooner construction can begin, the sooner the country can realize the tremendous benefits of the OMP. Please approve this plan today so that O'Hare International Airport remains the economic engine of the region and state!

I support the O'Hare Modernization Program!

Dear Mr. MacMullen:

I support the O'Hare Modernization Program because...

I am tired of being told that my flight cannot leave because of ATC delays at O'Hare
