

CHAPTER 4

PUBLIC OUTREACH AND COMMUNITY INVOLVEMENT

The views of communities—including local residents, the general public, and stakeholders—are important to FAA as we take the next steps to advance the national airspace system. The 2016 update to FAA's Community Involvement Manual reaffirms FAA's commitment to inform and involve the public and to give meaningful consideration to community concerns and views as FAA makes aviation-related decisions that affect them.

FAA is committed to public involvement and agency input throughout this Re-Evaluation process. FAA will hold four six-hour public workshops between February 4-7, 2019 at locations surrounding O'Hare, providing attendees an opportunity to learn more about the Draft Re-Evaluation and provide input on it.
