Airport Certification Information Bulletin (ACIB) 15-01

Subject: Airport Safety Information Video Series

The Federal Aviation Administration has launched a new safety information video series for airport operators and airport employees. The videos will provide the airport community with information that will help them continue to operate the nation’s airports safely and efficiently.

The FAA is committed to working with airports and the videos are just another tool to broaden that partnership. Through the web-based video series, the FAA’s dedicated and knowledgeable airports staff will share new information, safety reminders, best practices, and lessons learned that can benefit airport operators. The first video, entitled “Airport Winter Safety Operations,” addresses the steps that airport operators should take during inclement weather to operate safely.

The following link will take you to the video series page on the FAA’s website. Please ensure the appropriate airport employees subscribe to this page to receive alerts when new videos are released.

The screenshot shows the FAA website's 'Airports' section. The top navigation bar includes 'FAA Home', 'Jobs', 'News', 'About FAA', 'A-Z Index', and a 'FAA for You...' button. A search bar is located below the navigation. The 'Airports' menu item is selected. The main heading is 'Airport Safety Information Video Series Airports'. The text below the heading reads: 'Welcome to the Airport Safety Video Series. Over the next several months, we plan to launch several short videos to highlight important safety issues, encourage the use of new technologies, and publicize changes to airport safety-related guidance and policy.' A red circle highlights the link 'Sign up to receive alerts when we release a new video >>'. To the right of the text are icons for 'Print', 'Share', and 'Subscribe'. A sidebar on the left lists various FAA programs such as 'Airport Compliance', 'Airport Cooperative Research Program', 'Airport Improvement Program (AIP)', 'Airport Safety', 'Engineering, Design, & Construction', 'Environmental Program', and 'Major Airport Development'.
