

**RUNWAY INCURSION MITIGATION (RIM) PROGRAM
INVENTORY OF AIRPORT LOCATIONS**

The FAA developed this inventory of airport locations where runway incursions (RI) have occurred, and is now working with airports on mitigation strategies. The data collected from FY 2008 - CY 2019 indicates airport locations where three or more peak annual runway incursions occurred in a given calendar year or more than ten runway incursions have cumulatively occurred during the most recent 10 years (CY 2009 - CY 2019). This information is subject to change as the FAA works with the airport sponsors. As projects proceed and additional data are collected on RIs, the FAA will update this inventory as necessary.
