

**RUNWAY INCURSION MITIGATION (RIM) PROGRAM  
INVENTORY OF AIRPORT LOCATIONS**

The FAA developed this inventory of airport locations where runway incursions (RI) have occurred, and is now working with airports on mitigation strategies. The data collected indicates airport locations where three or more peak annual RIs occurred in a given calendar year or where cumulative incursion counts averaged one or more RIs per year of data analyzed. Cumulative RI counts reflect total RIs since FY 2008 for each location, except for locations validated in 2020, which display RI data from the previous 10 calendar years of available RI data (2010- 2019). This information is subject to change as the FAA works with the airport sponsors. As projects proceed and additional data are collected on RIs, the FAA will update this inventory as necessary.

Airport Name	Location	Location Identifier	Year Added to RIM	Region	NPIAS Hub Classification	Asset Cat	Part 139	Cumulative RI (Pilot & Vehicle/Pedestrian Deviations)	Peak CY Annual RI (Pilot & Vehicle/Pedestrian Deviations)
