Executive Summary

FAA REGIONAL AIR SERVICE DEMAND STUDY

Delaware Valley Regional Planning Commission

Air Passenger Survey

- Survey sampling plan was based on each respective airport's historical traffic data & representative of terminal & airline operational profiles
- Surveys were conducted 6:00am-Midnight, 7 days per week from July 2005 through September 2005
- Surveys were self-administered by departing passengers in boarding lounges/hold rooms
- Connecting passengers were not included due to the very limited amount of connecting traffic occurring at the three study airports
- Total Usable Survey Target: 3,300
- Usable surveys were defined as those with enough information to permit geo-coding
- Surveys were tested at a +/- of 3-percentage point confidence level at the airport level.

Survey of Area Businesses

- A mail-in survey of area businesses was conducted among employers who represent companies and organizations within 30 miles of the NYSDOT DVRPC airports included in the study.
- The purpose of this research was to gain an understanding of air travel patterns among employees relating to travel frequency, airport of choice and critical factors in airport choice.
- A total of 3,300 mail-in survey instruments (1,100 per airport) were sent to businesses within 30 miles of each study airport in November 2005. In all, 87 responses were returned and comprise the basis of the analysis.

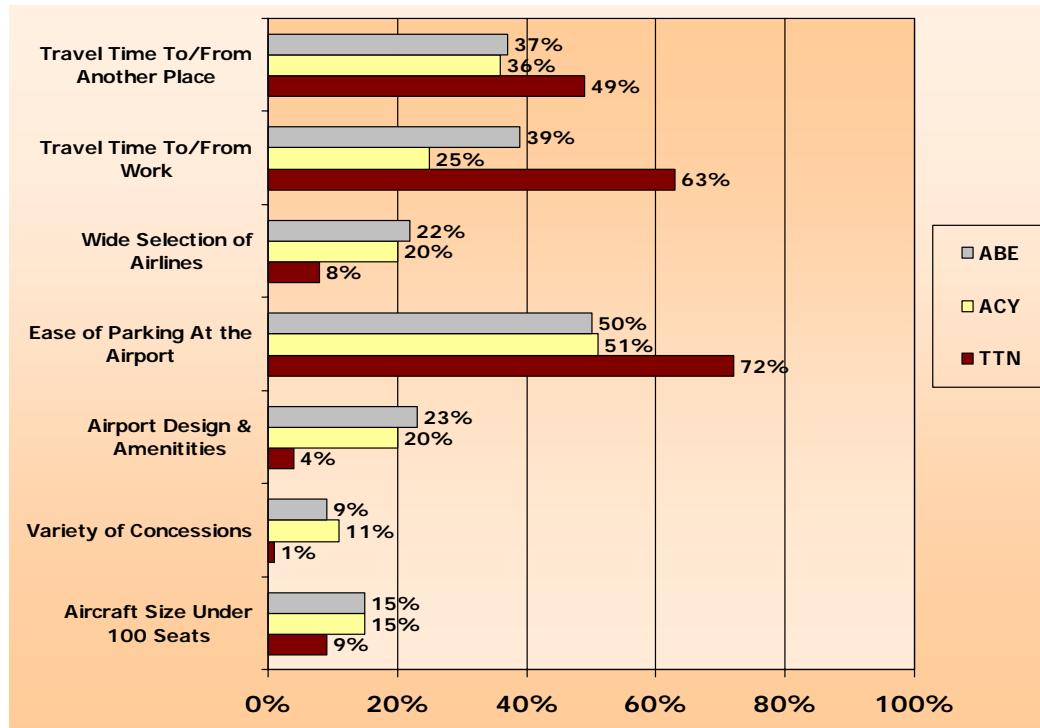

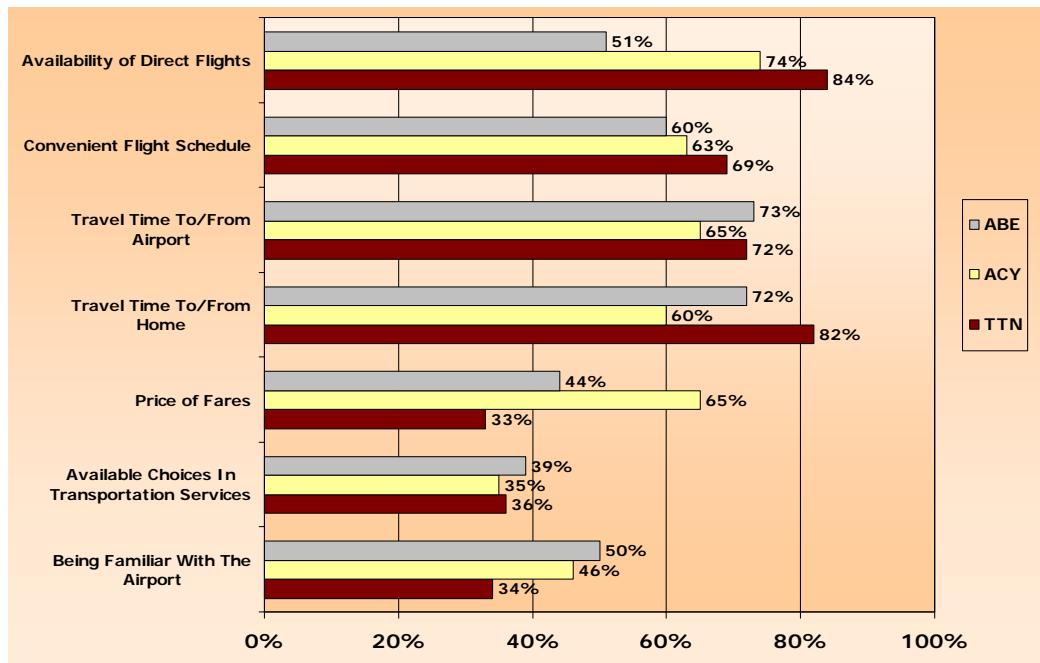

FAA REGIONAL AIR SERVICE DEMAND STUDY

Delaware Valley Regional Planning Commission

Factors Influencing Airport Choice

Survey respondents rated factors on a 7-point scale. The percentages shown represent the number of people who rated a given factor a "6 or 7"

Warren, NJ		
Wyoming, PA		

- The counties are the basis of the socio-economic model used in the development of the passenger forecast

FAA REGIONAL AIR SERVICE DEMAND STUDY
Delaware Valley Regional Planning Commission

Airport Preference

At **ABE**, 58% of the passengers surveyed prefer one NY area airport over the others. Of those passengers, (54%) claim they prefer **ABE**. After **ABE**, **EWR** is sited as a preferred airport.

At **ACY**, 65% of the passengers surveyed prefer one NY area airport over the others. Of those passengers, (67%) claim they prefer **ACY**. After **ACY**, **PHL** is sited only slightly more often than **EWR** as the preferred airport.

At **TTN**, 81% of the passengers surveyed prefer one NY area airport over the others. Of those passengers, (39%) claim they prefer **TTN**. After **TTN**, **EWR** is sited as a preferred airport.

Other Airports Considered

At **ABE**, 40% of the passengers considered departing from another area airport. Most, (58%) considered **PHL** followed by (28%) who considered **EWR**

At **ACY**, 34% of the passengers considered departing from another area airport. Most, (63%) considered **PHL** followed by (31%) who considered **EWR**

At **TTN**, 29% of the passengers considered departing from another area airport. Most, (64%) considered **PHL** followed by (36%) who considered **EWR**

I. Introduction

FAA REGIONAL AIR SERVICE DEMAND STUDY

Delaware Valley Regional Planning Commission

It is widely accepted that at some point in the future, John F. Kennedy International (JFK), Newark Liberty International (EWR), and LaGuardia Airport (LGA), will ultimately exceed their capacity to accommodate the demand for commercial air service in the NY/NY metropolitan area. Recognizing both the limitations of the three metropolitan area airports and the possibility that other commercial service airports in the region could potentially augment regional airport capacity, the Federal Aviation Administration (FAA) initiated a study to evaluate future air service demand in the region and to assess the ability of nine regional airports to accommodate that demand. Under contract with the Delaware Valley Regional Planning Commission, and funded by an FAA grant, a team of aviation consultants comprised of staff from Parsons Brinckerhoff Aviation, Landrum & Brown, and Airport Interviewing and Research, initiated the FAA Regional Air Service Demand Study (The Study) in late November, 2004.

Included in the Study is an examination and assessment of the region's three large-hub airports including John F. Kennedy International (JFK), LaGuardia Airport (LGA) and Newark Liberty International Airport (EWR), as well as, six of its small hub airports, including Stewart International (SWF), Westchester County (HPN), and Long Island/Mac Arthur (ISP) Airports in New York State; Trenton Mercer (TTN) and Atlantic City International (ACY) Airports in New Jersey; and Lehigh Valley International Airport (ABE) in Pennsylvania. To some degree, the service areas of the small-hub airports overlap that of the region's large-hub airports. It is therefore important to determine if these outlying airports can provide incremental capacity in the regional airport system.

Primary among the study tasks was the execution of an Air Passenger Survey at the three NY/NJ metropolitan large-hub commercial service airports, as well as the six small-hub regional airports noted above. The goal of the air passenger survey was to obtain critical information pertaining to travel origination, factors influencing airport choice, travel mode and duration, as well as general demographic information. With detailed travel origination data, the specific airport service areas – or *catchment areas* for each respective airport could be determined. Once identified, the airport *catchment area* serves as the basis for forecasting future air service demand.

This report presents the results and key findings associated with the Air Passenger Survey and the Survey of Area Businesses conducted at Lehigh Valley International Airport, Atlantic City International Airport and Trenton-Mercer County Airport.

II. Survey Methodology & Approach

II.1 Survey Instrument

Two distinct survey instruments were developed – one for passengers originating their travel at one of the three DVRPC study airports, and another for area businesses. The Air Passenger Survey included 22 questions, while the business survey contained 16 questions. (Copies of both survey instruments appear in Appendix I & II.)

The survey questions focused on airport preferences, alternative airports used and key factors driving airport choice. In addition, questions covered topics about trip purpose, the passenger's place of residence, mode of ground transportation to the airport, and the ultimate destination of the trip. Questions aimed at obtaining basic demographic information about the passenger were also included.

A key purpose of the survey was to identify, at the zip code level, the local origin of passenger trips to each airport. Zip codes were then assigned on a geographic basis to a county, the objective being that survey findings would be summarized on a county-by-county basis.

II.2 Survey Sampling Plan

A survey sampling plan representative of the passenger profile at each airport during the proposed survey period was developed. The plan considered not only the overall distribution of air passenger traffic by airport but also took into account the distribution air passengers by terminal and concourse at each airport. Typical passenger loads by time of day and day of week were also considered as survey quotas were established. The sampling plan for this exercise was developed for the period from June 2005 through August 2005, and was based on information published in the Official Airline Guide (OAG).

The minimum goal established by DVRPC was that a total of 3,300 *usable* surveys be collected from all three airports, and tested at a +/- of 3-percentage point confidence level at the airport level. The primary criteria for defining a useable survey was that it contain sufficient information to permit geo-coding at the zip code level.

At Trenton-Mercer County Airport, every attempt was made to reach the quota of 1,100 but the passenger activity levels were not sufficient to do so, thus the survey team was only able to obtain a total of 98 completed interviews.

The final air passenger survey plan appears in Appendix III.

II.3 Air Passenger Survey Process

The air passenger survey was designed as a self-administered questionnaire and was distributed to departing air passengers at boarding gate hold rooms according to the pre-established sampling plan previously described. All surveying activities took place during the period from June 2005 through September 2005. Interviewing occurred between the hours of 6:00 a.m. – 12:00 a.m. rotating the days of the week so that each day was surveyed over the entire period.

Table II-1 below summarizes the number of usable surveys obtained by airport and terminal compared to plan.

Table II-1 ABE Total Usable Surveys vs. Plan

Table II-3 TTN Total Usable Surveys vs. Plan

	TARGET	ACTUAL	Surplus (Deficit)
PAN AM	350	98	(252)
TOTAL	350	98	

II.4 Business Survey Process

A mail-in survey of area businesses was conducted among employers who represent companies and organizations within 30 miles of the DVRPC airports included in the study.

The purpose of this research was to gain an understanding of air travel patterns among employees relating to travel frequency, airport of choice and critical factors in airport choice.

A total of 3,300 mail-in survey instruments (1,100 per airport) were sent to businesses within 30 miles of each study airport in November 2005. In all, 87 responses were returned and comprise the basis of this analysis.

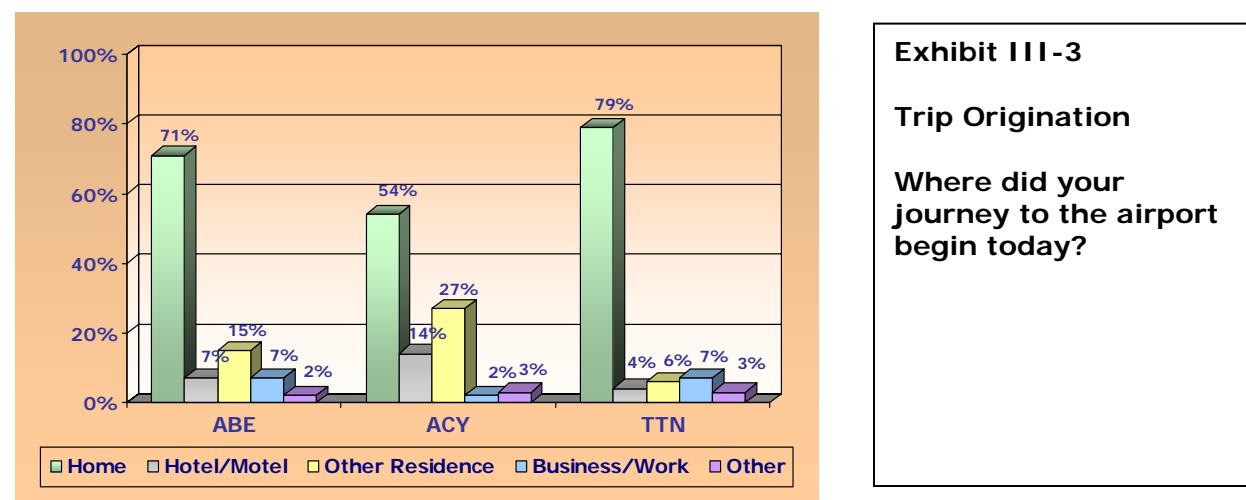

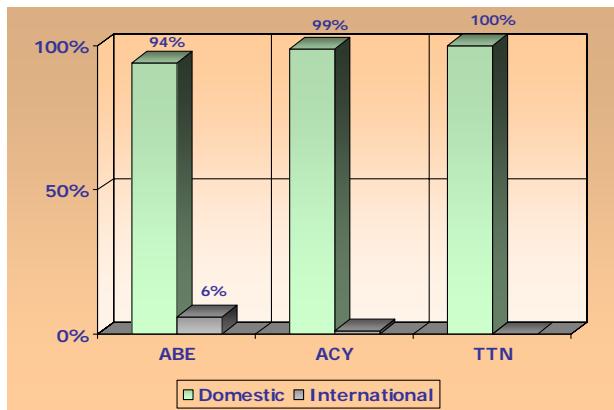

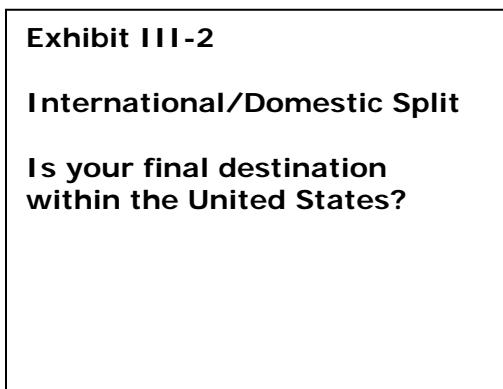

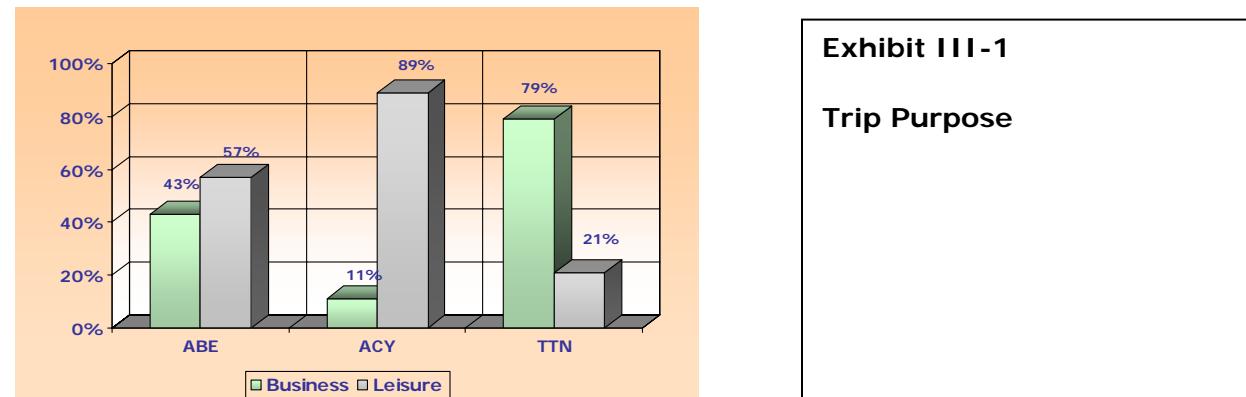

III. Summary Air Passenger Survey Findings

(Airport Comparisons)

FAA REGIONAL AIR SERVICE DEMAND STUDY

Delaware Valley Regional Planning Commission

Section III. of this report contains select survey findings of key variables. The data is presented in a manner to allow ready comparisons between the three airports comprising the DVRPC portion of the FAA Regional Air Service Demand Study (ABE, ACY, TTN). Subsequent sections of this report will provide more specific survey findings at the individual airport level.

V. Survey of Area Businesses

FAA REGIONAL AIR SERVICE DEMAND STUDY

Delaware Valley Regional Planning Commission

This section of the report presents the results of surveys conducted among employers who represent companies and organizations within 30 miles of the DVRPC airports included in the study.

The purpose of this research was to gain an understanding of air travel patterns among employees relating to travel frequency, airport of choice and critical factors in airport choice.

A total of 3,300 mail-in survey instruments (1,100 per airport) were sent to businesses within 30 miles of each study airport in November 2005. In all 125 responses were returned and comprise the basis of this analysis.

VI.2 Definition of Airport Service Areas

Each zip code was assigned to a county depending upon its location. Those zip code areas that spanned county boundaries were assigned to the county which had the larger portion of a zip code's area. The number of surveys was then tallied and compared to the County 2004 population (as described by Woods & Poole Economics). A rate of surveys per 1,000 population was established. Using a threshold of 0.05 surveys per 1,000 population gave the best results for defining airport service areas that were composed of contiguous counties and were reasonably consistent with past definitions.

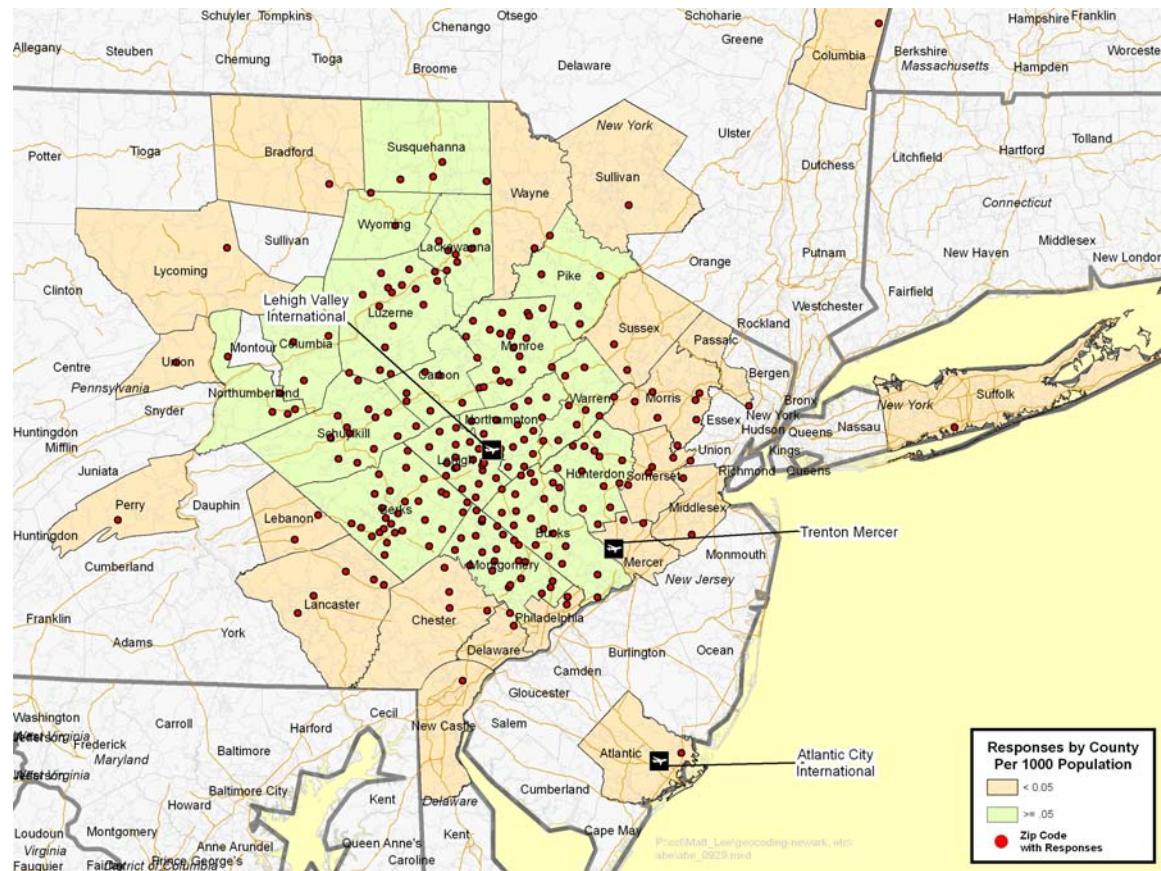

The purpose of this analysis is to define those counties that should be included in the socio-economic model of each airport's service area. While a county may generate a noticeable number of trips to an airport, the airport may not necessarily be an important part of that county's air travel market. Including a large county that generates a small number of trips in an airport service area model would distort the overall airport model towards the socio-economic factors of that county that generates only a small number of trips.

Exhibit VI.2-5 Number of Airports Serving Each County

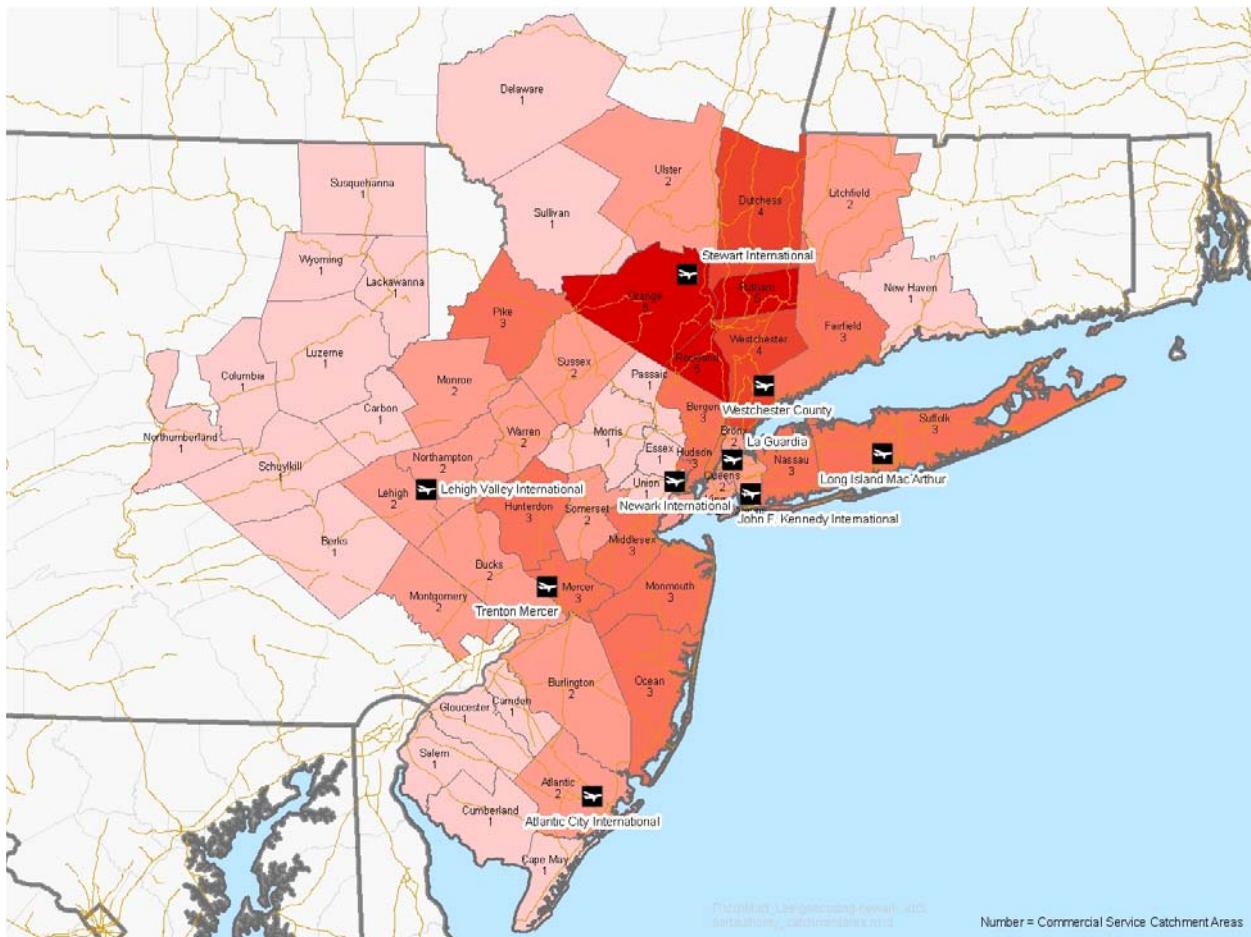

Exhibit VI.2-5 illustrates the entire airport service area for all nine airports included in the regional study. Only Putnam, Westchester, Rockland and Orange Counties in New York; and Bergen and Hudson Counties in New Jersey are in the service areas for all three large-hub airports operated by the Port Authority of NY & NJ. When the other six airports in the regional study are considered, Rockland, Orange and Putnam Counties in New York State are served by five different airports. Passaic, Essex, Morris and Union Counties in New Jersey are served only by Newark Liberty International Airport.

VII. Airport Preference

FAA REGIONAL AIR SERVICE DEMAND STUDY

Delaware Valley Regional Planning Commission

Exhibit VII-1 Preferred Airport by County

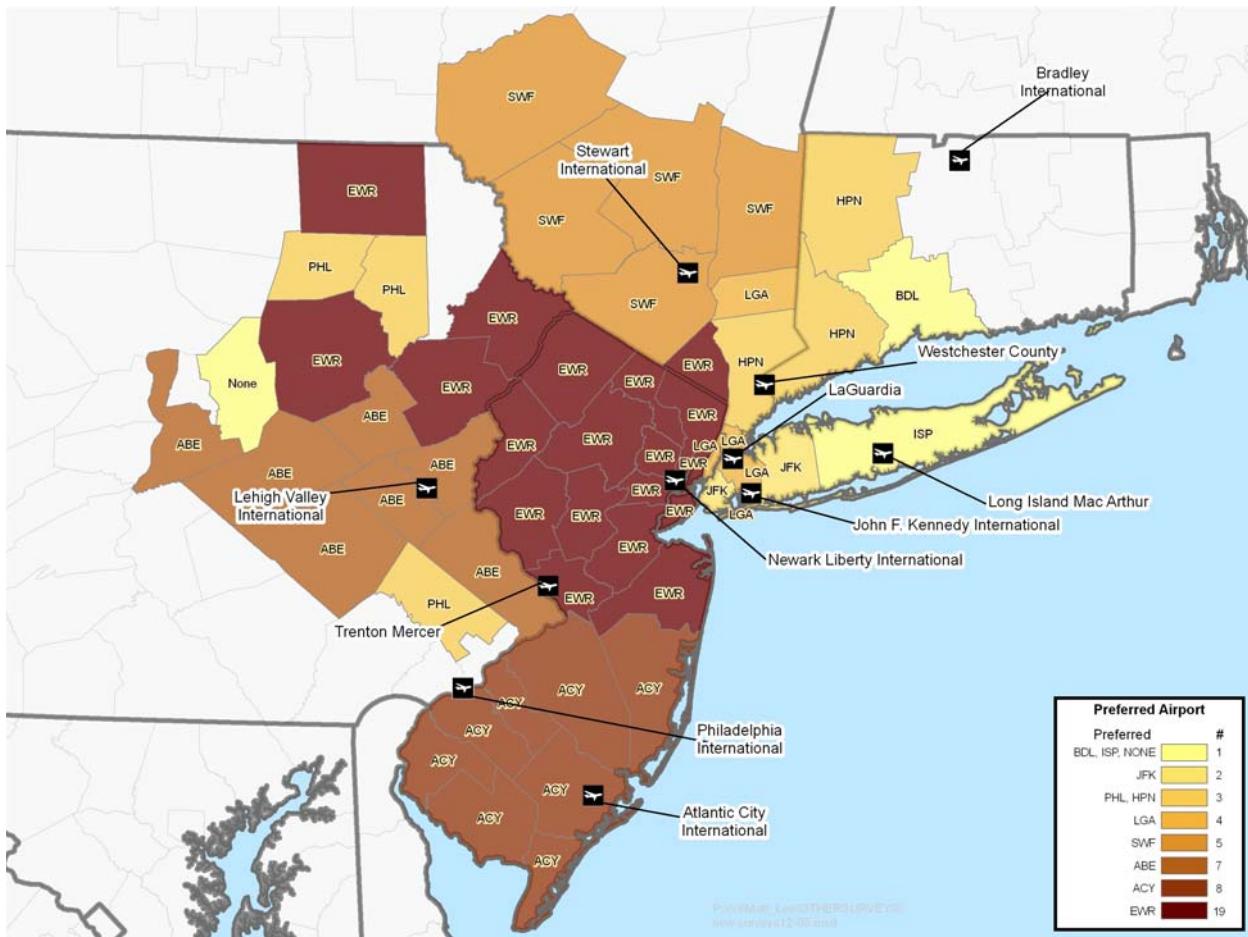

Exhibit VII-2

Other Airports Considered When Planning Air Travel

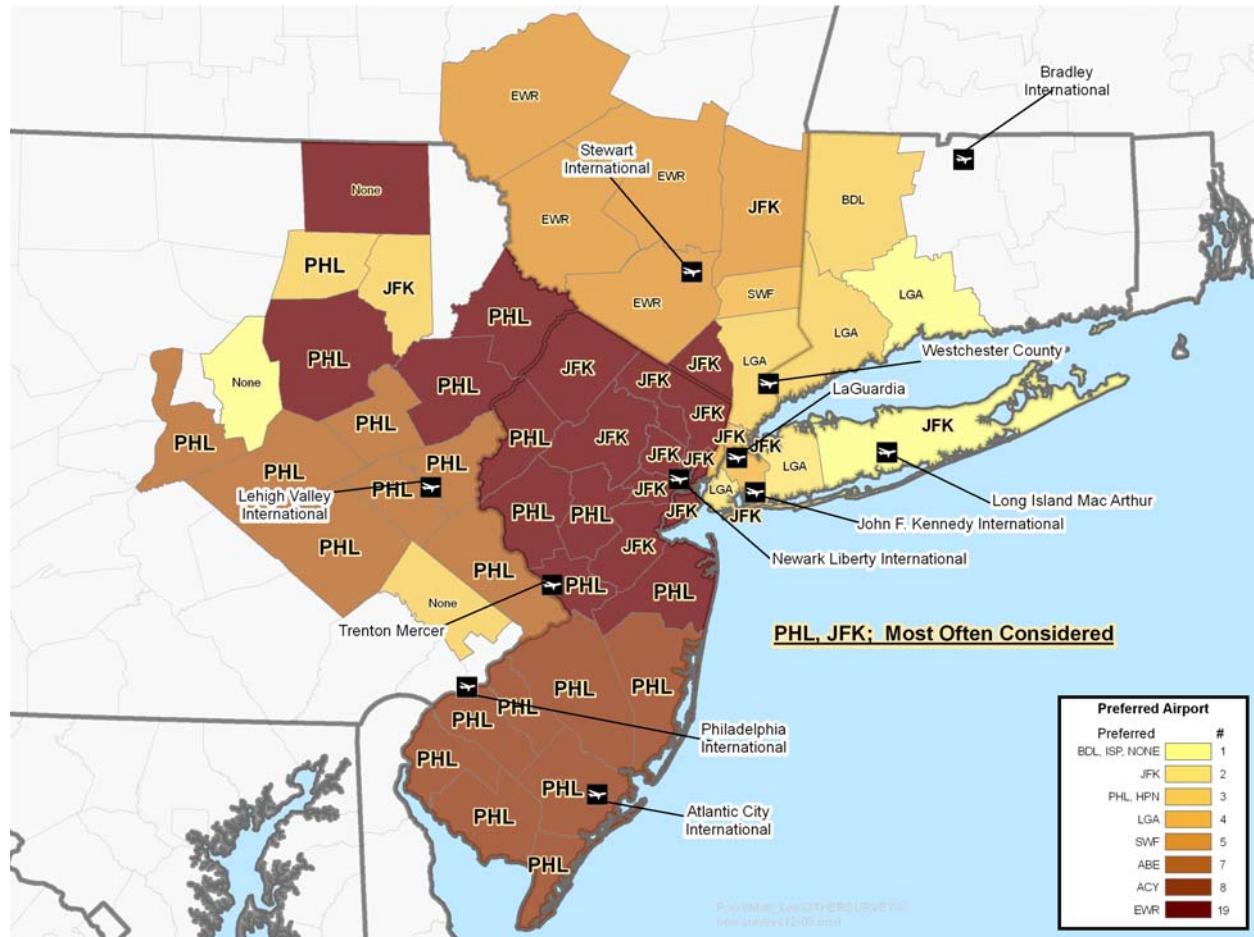

Exhibit VII-2 shows both the preferred airport (as colors) and the most frequently cited considered airport for the entire study area. The physical barriers to transportation still shape airport choice. Areas on the west side of the Hudson River in New York State consider EWR Airport, but prefer SWF Airport. Areas on the east side of the Hudson River in Connecticut prefer SWF, HPN or BDL, but will consider JFK and LGA. However, exceptions occur when an airport offers unique or lower priced air services such as that offered at JFK Airport. Northern New Jersey passengers consider JFK Airport. The recent expansion of low fare service offerings at PHL Airport appears to have an influence on airport choice for central, southern and western New Jersey. Comparing the alternative airports considered by passengers to current service areas indicates that EWR Airport is more vulnerable to a loss of passenger volume to either JFK or PHL. By contrast, JFK and LGA Airports are more likely to lose passengers to each other.

FAA REGIONAL AIR SERVICE DEMAND STUDY
Delaware Valley Regional Planning Commission

Airport Preference

At **ABE**, 58% of the passengers surveyed prefer one NY area airport over the others. Of those passengers, (54%) claim they prefer **ABE**. After **ABE**, **EWR** is sited as a preferred airport.

At **ACY**, 65% of the passengers surveyed prefer one NY area airport over the others. Of those passengers, (67%) claim they prefer **ACY**. After **ACY**, **PHL** is sited only slightly more often than **EWR** as the preferred airport.

At **TTN**, 81% of the passengers surveyed prefer one NY area airport over the others. Of those passengers, (39%) claim they prefer **TTN**. After **TTN**, **EWR** is sited as a preferred airport.

Other Airports Considered

At **ABE**, 40% of the passengers considered departing from another area airport. Most, (58%) considered **PHL** followed by (28%) who considered **EWR**

At **ACY**, 34% of the passengers considered departing from another area airport. Most, (63%) considered **PHL** followed by (31%) who considered **EWR**

At **TTN**, 29% of the passengers considered departing from another area airport. Most, (64%) considered **PHL** followed by (36%) who considered **EWR**

<input type="checkbox"/> \$120,000 - \$139,999	

One final question...

22. Have you taken a train for reasons other than commuting to work in the past year in lieu of traveling by air to/from the New York/New Jersey Metropolitan area?

Yes No

THANK YOU FOR GIVING US YOUR OPINIONS. WE APPRECIATE IT.

PLEASE RETURN THIS SURVEY TO THE AIR SUPERVISOR
--

Appendix II

Survey Questionnaire

Business Survey

August 12, 2005

Dear Study Participant:

The Delaware Valley Regional Planning Commission (DVRPC) has engaged Parsons Brinckerhoff (PB) and its surveying subconsultant, Airport Interviewing and Research (AIR), to undertake a *Regional Air Service Demand Study*.

The overall purpose and key objectives of this DVRPC Study are to: (1) Provide an analysis and assessment of Trenton Mercer (TTN), Atlantic City (ACY), and Lehigh Valley (ABE), to determine their capacity to provide air service in the New York Metropolitan region, including improved service for area businesses; (2) provide the airports with passenger demographic and demand data to aid in their efforts to improve their economic competitiveness; and (3) to provide the FAA with a usable data set for further regional analyses.

Through the use of surveys – of both passengers and businesses in the catchment areas of these airports - critically needed trip origin/destination and related data will be collected. In addition, assessments of each of the airports will be conducted to review existing conditions and identify the current role that each of the airports plays within the overall transportation system in your company's location.

We respectfully request, therefore, your cooperation in filling out the attached survey form, and in returning it in the enclosed envelope. The information that you provide about the travel habits of your employees will only be summarized and presented in aggregate form, and your input will be treated as strictly confidential.

We thank you in advance for your cooperation.

Very truly yours,

A handwritten signature in black ink, appearing to read "John J. Coscia".
John J. Coscia
Executive Director

|-------------------|-----------------------|
| 1 [] 1-25 trips | 4 [] 100-499 trips |
| 2 [] 26-50 trips | 5 [] 500-1000 trips |
| 3 [] 51-99 trips | 6 [] Over 1000 trips |

- 1b.** What would you estimate the total number of round-trip Charter and Corporate Jet/Prop Flights taken for business reasons by employees of your company in 2004 to be? **[CHECK ONE ANSWER]**

Charter/Corporate Jet/Prop Flights

- | | |
|-------------------|-----------------------|
| 1 [] 1-25 trips | 4 [] 100-499 trips |
| 2 [] 26-50 trips | 5 [] 500-1000 trips |
| 3 [] 51-99 trips | 6 [] Over 1000 trips |

0 [] No business trips taken either by Commercial, Charter, Corporate, or Prop planes. **[STOP AND DISCARD SURVEY. DO NOT RETURN]**

- 2.** What is the primary business of your company? **[CHECK ONE ANSWER]**

- | | |
|--|--|
| 1 [] Automobile/Related Services | 1 [] Marketing/Consulting |
| 2 [] Banking/Finance/Stock, etc. | 2 [] Pharmaceutical |
| 3 [] Communications/Advertising/PR | 3 [] Physician/Medical Field |
| 4 [] Computer/Computer Related Services | 4 [] Professional Services |
| 5 [] Construction | 5 [] Publishing & Information Services |
| 6 [] Entertainment | 6 [] Real Estate (Commercial/Residential) |
| 7 [] Hospitality | 7 [] Retail |
| 8 [] Hospital/Health Care | 8 [] Sales |
| 9 [] Insurance | 9 [] Transportation |
| 0 [] Manufacturing | 0 [] Other: _____ |

- 3.** Approximately how many people are employed by your Company at this location? **[CHECK ONE ANSWER]**

1 [] 1-4	5 [] 100-200
2 [] 5-20	6 [] 200-250
3 [] 20-50	7 [] 250 – 500
4 [] 50-100	8 [] 500-1,000
	9 [] 1000+

4. When planning trips for employees, who is responsible for booking their flight reservations? **[CHECK ALL THAT APPLY]**

- 1 [] Employees themselves
- 2 [] Travel Agent
- 3 [] Corporate travel department within our company
- 4 [] Administrative assistant/secretary
- 5 [] Other

5. What airports in the area are most frequently used by employees for business travel? **[CHECK ALL THAT APPLY]**

1 [] Albany County Airport	1 [] Newark Liberty International Airport
2 [] Atlantic City International Airport	2 [] Orange County Airport
3 [] Bradley International Airport (Hartford)	3 [] Philadelphia International Airport
4 [] Bridgeport Airport	4 [] Pottstown Municipal Airport
5 [] Chester County Airport	5 [] South Jersey Regional Airport
6 [] Dutchess County Airport	6 [] Stewart International Airport
7 [] John F. Kennedy International Airport	7 [] Syracuse Hancock International Airport
8 [] LaGuardia Airport	8 [] Teterboro Airport
9 [] Lehigh Valley International Airport	9 [] Trenton-Mercer Airport
0 [] MacArthur Airport (Islip)	0 [] Westchester County Airport

6. What one airport do employees use most frequently for business travel? **[CHECK ONE AIRPORT]**

1 [] Albany County Airport	1 [] Newark Liberty International Airport
2 [] Atlantic City International Airport	2 [] Orange County Airport
3 [] Bradley International Airport	3 [] Philadelphia International Airport
4 [] Bridgeport Airport	4 [] Pottstown Municipal Airport
5 [] Chester County Airport	5 [] South Jersey Regional Airport
6 [] Dutchess County Airport	6 [] Stewart International Airport
7 [] John F. Kennedy International Airport	7 [] Syracuse Hancock International Airport
8 [] LaGuardia Airport	8 [] Teterboro Airport
9 [] Lehigh Valley International Airport	9 [] Trenton-Mercer Airport
0 [] MacArthur Airport	0 [] Westchester County Airport

7. Please rate each of the following statements in regard to how you feel they influence employee decisions in selecting to fly for business reasons from the airport checked in Q.6 . A "7" (Very High Influence) is the highest rating you can give. "1" (No Influence At All) is the lowest rating you can give. You can circle any number in-between. **[CIRCLE ONE NUMBER FOR EACH ITEM]**

	No Influence At All						Very High Influence
Available Choices In Transportation Services To/From Airport	1	2	3	4	5	6	7
Ease of Parking At The Airport	1	2	3	4	5	6	7
Convenient Or Shortest Travel Time To/From Home	1	2	3	4	5	6	7
Convenient Or Shortest Travel Time To/From Work	1	2	3	4	5	6	7
Convenient Or Shortest Travel Time To/From Another Place	1	2	3	4	5	6	7
Convenient Schedule of Flights to Destinations	1	2	3	4	5	6	7
Availability of Direct Flights To Destinations	1	2	3	4	5	6	7
Price of Ticket/Fares Are Cheaper	1	2	3	4	5	6	7
Wide Selection of Airlines To Choose From	1	2	3	4	5	6	7
Aircraft Size of Under 100 Seats	1	2	3	4	5	6	7
Aircraft Size of Over 100 Seats	1	2	3	4	5	6	7

8. What is the one main mode of transportation used most frequently by employees to travel to/from the airport they use most often? **[CHECK ONE ANSWER]**

1 [] Private Car → **PLEASE INDICATE THE FOLLOWING:**

- 1 [] Usually get dropped off
- 2 [] Usually park in an on-airport lot
- 3 [] Usually park in an off-airport lot

2 [] Car Service/ Limo

6 [] Scheduled Airport Bus/Van

3 [] Rental Car

7 [] Metro-North, NJ Transit, AMTRAK

4 [] Taxi

8 [] Hotel Courtesy Vehicle

5 [] Charter Bus

9 [] Local City Bus

- 9.** What two (2) destinations within the United States are most important for business related travel for employees? **[WRITE TOP 2 PREFERRED DESTINATIONS]**
-
-

- 10.** What two (2) international destinations are most important for business related travel for employees? **[WRITE TOP 2 PREFERRED INTERNATIONAL DESTINATIONS]**
-
-

0 [] None, we do not fly Internationally

- 11.** In an average year, how often would you estimate that clients travel by air to visit your company? **[COUNT EACH ROUND TRIP AS ONE TRIP. CHECK ONE ANSWER]**

1 [] 1-25 trips	4 [] 100-499 trips	7 [] Don't Know
2 [] 26-50 trips	5 [] 500-1000 trips	
3 [] 51-99 trips	6 [] Over 1000 trips	

- 12.** Does your company have or use private (corporate) aircraft? **[CHECK ONE ANSWER]**

1 [] No 2 [] Yes

- 13a.** Have employees taken a train for reasons other than commuting to/from work in the past year in lieu of traveling for business by air to/from the New York/New Jersey Metropolitan?

1 [] Yes 2 [] No

- 13b.** Thinking about trip distance, how many miles are usually involved when deciding to travel by train or car as an alternative to flying?

1[] 99 or less	4[] 400-599
2[] 100-199	5[] 600-599
3[] 200-399	8[] Over 800

THANK YOU FOR YOUR HELP.

**PLEASE PLACE THIS SURVEY IN THE ENCLOSED
ENVELOPE AND MAIL IT BACK TO US.**
