Issued March 13, 2009

Number SO-09-02

This CertAlert pertains to:
All 14 CFR part 139 Airport Operators

Updated Runway Incursion Toolbox

In December 2009, we sent out the original Runway Incursion Toolbox. We heard from some of you at the FAA Communications Conference in Atlanta that you would like to see us do that again. Our Regional Runway Safety Program Office recently received some wonderful new handouts and we thought this would be a great time for us to get together and send out another updated Runway Incursion Toolbox. Please share this information with your tenants and users. Most are very happy to receive handouts that they could use in the lobby of the FBO, flight training school or the break room at air carrier ramp.

Remember to keep your Airport Diagram current at all times and if you have a problem getting it published please contact your Airport Certification Inspector. If you have any questions, please feel free to contact us.

Regional Runway Safety Program Office Manager: Anna Cohen (404) 305-5558

Team Lead, Airport Certification and Safety, Airport Division: Linda Berkowitz (404) 305-6715
