

AFTER 2 YEARS SURVEILLANCE HIV SPECIFICATION

(Updated 06/30/2021)

Please provide our office with a current status report from a treating physician knowledgeable and experienced in the treatment of HIV-infected persons. This report should include the information outlined below, along with any separate additional testing.

The results should be sent to the Aerospace Medical Certification Division (AMCD). After review, if the airman is determined qualified, AMCD/Regional Flight Surgeon (RFS) will send a letter to the airman authorizing the Aviation Medical Examiner (AME) to issue a new time-limited medical certificate, as applicable. Both the initial and subsequent medical determinations may only be made by the RFS or AMCD.

The current status report should include:

- Every 6 months: determinations of viral load, CD4 cell count, a clinical assessment of cognitive function and any other laboratory and clinical tests deemed necessary by the treating physician. These results may be aggregated and included in a written current status report every 12 months unless there is an adverse change;
- Every 12 months a written current status report from the treating physician knowledgeable and experienced in the treatment of HIV-infected persons. To include the following: a medical history emphasizing symptoms and treatment referable to the immune system, any signs or symptoms of atherosclerotic cardiovascular disease, and diabetes mellitus or insulin resistance and a clinical assessment of cognitive function;
- A current assessment of cognitive function must be provided with the Initial application. Follow-up neuropsychological evaluations are required annually for first and second-class pilots and every other year for third-class pilots. Follow the testing specifications as described in the [FAA Neuropsychology Testing Specifications site](#). To promote test security, itemized lists of tests comprising psychological/neuropsychological test batteries have been moved to this secure site. Authorized professionals should use the secure portal. For access, email a request to 9-amc-aam-NPTesting@faa.gov; and
- Any other tests advised by the treating physician.
