

	CFR 14 Part 147 Aviation Maintenance Technician Schools (AMTS) Minimum Passage Rate Report	Aviation Safety Oversight & Certification Organization Flight Standards Service Office of Safety Standards	Created 9/30/2026 Aircraft Maintenance Division + General Aviation & Commercial Division
Dates: 8/1/2023 through 7/31/2026			Page 1 of 11

Disclaimer

The Federal Aviation Administration (FAA) reserves the right to update the methodology and reporting framework as necessary to ensure accuracy of the report.

Report Description

The purpose of the Minimum Passage Rate Report is to demonstrate compliance with aviation maintenance technician schools (AMTS) passage rate requirements outlined in 14 CFR part 147, section 25, Minimum Passage Rate.

Report Scope

The report includes data for all test types (written, oral, and practical) across the three aviation mechanic sections:

- Aviation Mechanic General (AMG)
- Aviation Mechanic Airframe (AMA)
- Aviation Mechanic Powerplant (AMP)

In accordance with the regulation, the report includes only tests taken within 60 days of graduation. Data collection began on August 1, 2023, when the FAA implemented the Mechanic Test Generator (MTG) for oral and practical tests. This report reflects data for the most recent 3-year period. Compliance with 14 CFR part 147, section 25 cannot be evaluated until data for a full 3-year period is available; therefore, newly certificated schools will not be assessed for compliance until they have accumulated 3 years of passage rate data.

Minimum Passage Rate Calculation

The passage rate is calculated using this formula: $\text{Passage Rate} = \frac{\text{Passing Students}}{(\text{Passing Students} + \text{Failing Students})}$

Definitions

- Passing Student(s): Students who pass any combination of the AMG, AMA, and AMP written, oral, and practical tests within 60 days after the graduation date.
- Failing Student(s): Students who fail any AMG, AMA, or AMP written, oral, or practical test within 60 days after the graduation date.
- Graduation Date: The date a student completes the general, airframe, and/or powerplant curriculum as documented by the AMTS under 14 CFR part 147, section 21, Certificate of Completion. This date is communicated to the FAA through the written test center and/or Designated Mechanic Examiner (DME) via authenticated documentation, including FAA Form 8610-2, Airman Certificate and/or Rating Application – Mechanic and Parachute Rigger.

Calculation Notes

- Tests taken before the graduation date (i.e., early general written tests and 14 CFR part 65, section 80, Oral and Practical Tests are excluded from the passage rate calculation).
- If a student fails a test but subsequently passes the same test within 60 days of the graduation date, they are counted as a passing student.
- Failing students are included in the passage rate calculation only after the 60-day post-graduation period ends, allowing time for retakes.
- If a student passes the written and oral tests but fails the practical test within 60 days, they are classified as a failing student.

Stakeholder Feedback

Direct questions or concerns with this report to 9-AWA-AFS-300-Maintenance@FAA.gov.
