Subject: Cancellation of Advisory Circular AC 90-58C

for John Barfallo
for DMA

Flight Standards Service is requesting the cancellation of AC 90-58C, VOR Course Errors Resulting from 50 kHz Channel Misselection. The advisory information in this AC is based on technology that is no longer in use. The main issue was with certain types of 200 channel airborne receivers when the receiver was inadvertently mistuned 50 kHz from frequency of a 100 kHz VOR ground station. This is no longer relevant.

AC Number	Date	Document Title	OPR	Reason for Cancellation
