## Memorandum

Date: June 30, 2015

To: Al Spence, Directive Program Manager, Office of IT Enterprise Services, AES-200

From: Colleen M. D'Alessandro, Manager, Engine & Propeller Directorate, ANE-100

Prepared by: Robert J. Ganley, (781) 238-7110

Subject: Cancellation of AC 33-3

---

### Purpose

This memorandum requests cancellation of AC 33-3, Turbine and Compressor Rotors Type Certification Substantiation Procedures, dated September 9, 1968. Since we issued AC 33-3 in 1968, we have introduced new requirements in 14 CFR part 33, §§ 33.27 and 33.7. We also introduced ACs 33.27-1, 33.70-1, and 33.70-2 that provide guidance for the new requirements. There will be no impact to the budget from this cancellation.

If you have any questions regarding this request, please contact Timoleon Mouzakis, at 718-238-7114.

A handwritten signature in cursive script that reads "Colleen M D'Alessandro".
