Office of Airport Safety and
Standards

800 Independence Avenue, SW
Washington, DC 20591

September 18, 2019

Dear Airport Operators and Airport Industry Representatives:

We are circulating Federal Aviation Administration (FAA) Draft Advisory Circular (AC) 150/5200-18D, Airport Safety Self-Inspection, to interested industry associations to obtain comment and recommendations of action to be taken.

The FAA recommends the guidelines contained in this AC. This AC provides voluntary guidance for all airport operators in developing self-inspection programs. It also provides standards for developing and implementing self-inspection programs at airports certificated under Title 14 Code of Federal Regulations (CFR) part 139 (hereinafter referred to as part 139) that are acceptable to the Administrator. Part 139 regulations require an airport operator at a certificated airport to develop a self-inspection program acceptable to the Administrator as a means of compliance with § 139.327, Self-Inspection Program.

Please review this draft document and comment as appropriate. Please identify your recommended changes, provide a rationale for the recommendations, and specify the sections of the document they impact. The final document may be revised as a result of comments received and our further review.

Comments received by October 18, 2019, will be considered for inclusion in the document. Concurrence to the enclosure is requested. Comments may be submitted via electronic correspondence to dale.williams@faa.gov or via written correspondence to:

Federal Aviation Administration
800 Independence Avenue SW
C/O Dale Williams
Airport Safety and Standards
AAS-300 Room 618E
Washington DC 20591

You can also find the enclosed document on the FAA's draft Advisory Circular page at https://www.faa.gov/airports/resources/draft_advisory_circulars/.

Sincerely,

Anthony Butters
Acting Manager Airport Safety and
Operations
