Administration**

Office of the Airport Safety
And Standards

800 Independence Ave., SW
Washington, DC 20591

Dec. 19, 2025

Dear Airport Representatives:

Federal Aviation Administration (FAA) Draft Advisory Circular (AC) 150/5200-28H, *Notice to Airmen (NOTAM) for Airport Operators*, is being circulated to interested industry associations to obtain comments and recommendations of actions to be taken.

This Advisory Circular (AC) contains the FAA's standards and guidance for airport operators on the issuance of Notices to Airmen (NOTAMs). This AC provides guidance on using the NOTAM system for airport condition reporting and procedures used to describe, format, and disseminate information on unanticipated or temporary changes to components of, or hazards in, the National Airspace System (NAS). The NOTAM system is not intended to be used to advertise data already published or charted. Meeting the standards in this advisory circular will qualify as meeting the intent of Title 14 Code of Federal Regulations (CFR) Part 139, Certification of Airports.

Please review this draft document, and comment as appropriate. Please identify your recommended changes, provide a rationale for the recommendations, and specify the sections of the document they impact. The final document may be revised because of comments received and our further review.

Comments received by January 20, 2026, will be considered for inclusion in the revision. Concurrence with the enclosure is requested. Comments may be submitted via electronic correspondence to Gerald.W.Hayes@faa.gov.

The document may be found on the FAA's draft Advisory Circular page at http://www.faa.gov/airports/resources/draft_advisory_circulars/.

Sincerely,

Anthony Butters
Manager, Airport Safety Policy Branch
