Washington, DC 20591

MAY 8 2013

Dear Industry Representative:

Federal Aviation Administration (FAA) Draft Advisory Circular (AC) 150/5340-5D, Segmented Circle Airport Marker System, is being circulated to interested industry associations to obtain comments and recommendations of actions to be taken. Please review this draft and submit comments as appropriate. Additionally, please provide justification for all comments about issues you may have with the draft and recommended modifications. We may revise the final document as a result of comments received and further review by the Office of Airport Safety and Standards.

This AC sets forth standards for a system of airport marking consisting of certain pilot aids and traffic control devices.

We request concurrence with the enclosure. We will consider comments received by June 14, 2013, for inclusion in the advisory circular.

Submit comments in a separate document; do not embed comments in the draft document.

Please provide any comments to Thomas Mai at Thomas.Mai@faa.gov.

The document may be obtained in Adobe Acrobat PDF format from the FAA Airport Internet site at http://www.faa.gov/airports/resources/draft_advisory_circulars/

Sincerely,

John R. Dermody, P.E.
Manager, Airport Engineering Division
