Administration**

Office of Airport Safety
and Standards

800 Independence Ave., SW.
Washington, DC 20591

Dear Airfield Lighting Stakeholders:

Federal Aviation Administration (FAA) Draft Advisory Circular (AC) 150/5345-3G, **Specification for L-821 Panels for Remote Control of Airport Lighting**, is being circulated to interested parties to obtain comments and recommendations of actions to be taken. Please review this draft and submit comments as appropriate. Additionally, please provide justification for all comments regarding oppositions and recommended modifications. The final document may be revised as a result of comments received and further review by the Office of Airport Safety and Standards.

This specification sets forth the manufacturing requirements for panels to be used to control various airport lighting and auxiliary systems.

Comments received prior to March 5, 2010, will be considered for inclusion in the advisory circular.

Changes to this document are color-coded for your convenience.

The AC can be found on the Airports website at:

http://www.faa.gov/airports/resources/draft_advisory_circulars/

Sincerely,

A handwritten signature in black ink that reads "Rick Marinelli". The signature is written in a cursive, flowing style.

Rick Marinelli
Manager, Airport Engineering Division
