Washington, DC 20591

June 17, 2010

Dear Industry Representative:

Federal Aviation Administration (FAA) Draft Advisory Circular (AC) 150/5370-XX, *Airside Use of Heated Pavement Systems*, is being circulated to interested industry associations to obtain comments and recommendations of actions to be taken. Please review this draft and submit comments as appropriate. Additionally, please provide justification for all comments regarding oppositions and recommended modifications. The final document may be revised as a result of comments received and further review by the Office of Airport Safety and Standards.

This AC specifies the minimum performance requirements for the design, construction, inspection, and maintenance of heated pavement systems for use in the Aircraft Operations Area.

Comments received by August 2, 2010, will be considered for inclusion in the advisory circular. Concurrence with the enclosure is requested.

We have posted a PDF version of the draft advisory circular on the FAA website at http://www.faa.gov/airports/resources/draft_advisory_circulars/

Sincerely,

A handwritten signature in cursive script that reads "Jeffrey J. Rapol".

Jeff Rapol
Civil Engineer, Airport Engineering Division
