PRIVACY ACT STATEMENT:

Privacy Act of 1974 (PL 93-579) requires that users of this form be informed of the authority which allows the solicitation of the information and whether disclosure of such information is mandatory or voluntary; the principal purpose for which the information is intended to be used; the routine uses which may be made of the information gathered; and the effects, if any, of not providing all or any part of the requested information.

Title 49, United States Code requires the registration of each United States civil aircraft as a prerequisite to its operation. An aircraft is eligible for registration only: (1) if it is not registered under the laws of a foreign country; and (2) if it is owned by (a) a citizen of the United States; or (b) an individual citizen of a foreign country lawfully admitted for permanent residence in the United States; or (c) a corporation not a citizen of the United States when the corporation is organized and doing business under the laws of the United States or a State and the aircraft is based and primarily used in the United States; or (d) an aircraft of the United States government. Operation of an aircraft that is not registered may subject the operator to a civil penalty.

This form identifies the aircraft to be registered, and provides the name and permanent address for mailing the registration certificate. Incomplete submission will prevent or delay issuance of the registration certificate.

The following routine uses are made of the information gathered:

- To determine that aircraft are registered in accordance with the provisions of Title 49, United States Code.
- (2) To support the investigative efforts of Federal, State and foreign government law enforcement agencies.
- (3) To serve as a repository of documents used by individuals and title search companies to determine ownership of an aircraft.

PREPARATION: If <u>all</u> data and/or responses are not entered as required by this form, the application will be returned to the applicant for completion. Type or print all required information in the appropriate block/space. Except for signatures, all data must be typewritten or printed. Signatures that are not digital must be in ink. The name of the applicant should be identical to the name of the purchaser shown on the applicant's evidence of ownership.

EVIDENCE OF OWNERSHIP: The applicant for registration of an aircraft must submit evidence of ownership that meets the requirements prescribed in 14 CFR Part 47. AC Form 8050-2, Aircraft Bill of Sale, or its equivalent, must be used as evidence of ownership. If not purchased from the last registered owner, the applicant must submit conveyances completing the chain of ownership from the last registered owner to the applicant.

The purchaser under a CONTRACT OF CONDITIONAL SALE is considered the owner for the purpose of registration and the contract of conditional sale must be submitted as evidence of ownership.

A corporation that does not meet citizenship requirements must submit a certified copy of its certificate of incorporation.

REGISTRATION AND RECORDING FEES: The fee for issuing a certificate of aircraft registration should accompany this application. There is no recording fee for a bill of sale submitted with the application. A recording fee is required when a conditional sales contract is submitted as evidence of ownership. Fee amounts may be found in 14 CFR 47.17 and 14 CFR 49.15.

MAILING INSTRUCTIONS: After entering all required data and affixing necessary signatures, send a copy (IF INK SIGNATURES ARE AFFIXED, THE ORIGINAL INK-SIGNED COPY MUST BE SENT) of this application with all appropriate forms and fees to:

- (4) To provide aircraft owners and operators information about potential mechanical defects or unsafe conditions of their aircraft in the form of airworthiness directives.
- (5) To provide supporting information in court cases.
- (6) To serve as a data source for management information for production of summary descriptive statistics and analytical studies in support of agency functions for which the records are collected and maintained.

The temporary authority is valid until the FAA issues the Certificate of Aircraft Registration or until the date the FAA denies the application. This temporary authority is not available in connection with any Aircraft Registration Application received when 12 months have passed since the receipt of the first application following transfer of ownership by the last registered owner. The applicant must carry a copy of the signed application in the aircraft as temporary authority to operate without registration after the fee and evidence of ownership have been mailed/delivered to the FAA Aircraft Registry.
