FEDERAL AVIATION ADMINISTRATION

CT N 0000.5

12/23/03

Subj: Checklist of Canceled Orders

1. **PURPOSE.** This notice identifies and cancels FAA William J. Hughes Technical Center orders and supplements that are no longer valid and applicable to the Center's organizational structure, processes, and operating procedures.
2. **DISTRIBUTION.** This order is distributed to all Technical Center employees, including tenants and contractors via electronic version by accessing the Technical Center Electronic Library located on this website: <http://actlibrary.tc.faa.gov>. A broadcast message will be sent to all Technical Center employees via email advising that the notice is approved and posted on the website. Once the website is accessed, click on ACT Policy Directives link. It is also available electronically at: <http://dmis.faa.gov>.
3. **BACKGROUND.** During a recent review of the Technical Center's directives system to implement the validation process defined for the FAA's Directives System, an examination was done of existing policies to ensure that they are still applicable to Center operating procedures and responsibilities, reflect the current requirements, and accurately state the Center organization to which responsibility is assigned. As a result of this review, several orders were determined to be outdated and obsolete.

(A checklist of current Technical Center directives as well as national directives can be found at this web site: <http://dmis.faa.gov>. Click on View Directives. Change the Order Cancel Date box to the current date to view all current directives then click on Technical Center Checklist.)
