9-2-11. SECURITY NOTICE (SECNOT)

- 5. Distribution.** This notice is distributed to the following ATO service units: En Route and Oceanic, Terminal, Safety, and System Operations Services; service center offices; the Air Traffic Safety Oversight Service; the William J. Hughes Technical Center; and the Mike Monroney Aeronautical Center.
- 6. Background.** The FAA has found it necessary to increase security measures within the National Airspace System. The special flight rules area (SFRA) is one of the recent security-related changes. Aircraft that enter an SFRA or temporary flight restriction airspace without proper approval may be intercepted by Department of Defense aircraft. Pilots of the noncompliant aircraft are subject to regulatory and/or legal action. Recent events have highlighted the fact the FAA has no adequate way to search for aircraft that have violated national security procedures. The security notice provides a tool that will enable the FAA to locate aircraft that violate national security measures.
