

NOTICE

U.S. DEPARTMENT OF TRANSPORTATION FEDERAL AVIATION ADMINISTRATION

N 8900.368

National Policy

Effective Date:
6/22/16

Cancellation Date:
6/22/17

SUBJ: OpSpec/MSpec/TSpec/LOA A025, Electronic Signatures, Electronic Recordkeeping Systems, and Electronic Manual Systems

1. Purpose of This Notice. This notice announces significant updates to the Federal Aviation Administration's (FAA) standards for electronic signatures, electronic recordkeeping systems, and electronic manuals. In conjunction with the updated standards, Operations Specification (OpSpec), Management Specification (MSpec), Training Specification (TSpec), and Letter of Authorization (LOA) A025, Electronic Signatures, Electronic Recordkeeping Systems, and Electronic Manual Systems, have also been revised. The revision to A025 applies to most, but not all, of the templates. The majority of the templates required revisions to reformat the manner in which information is entered into each template.

a. The Updated Policy and Standards Apply to All 14 CFR Parts. The significant updates to the policy and standards governing the use of electronic signatures, recordkeeping systems, and manual systems apply to any electronic signature, electronic record, or electronic manual used by regulated entities (e.g., certificate holders, program managers, operators, air agencies, and Organization Designation Authorization (ODA) holders) that are subject to the Title 14 of the Code of Federal Regulations (14 CFR) requirements for signatures, records, and manuals.

b. Mandatory Template Revision. This is a mandatory revision to the A025 template for 14 CFR parts 91 subpart K (91K), 121, 125, 133, 135, 141, and 142. Required action for these templates is described in subparagraph 7a of this notice. The 14 CFR part 145 and 147 templates did not require revision. However, there is required action associated with these regulatory parts described in subparagraph 7b.

2. Audience. The primary audience for this notice is certificate-holding district offices (CHDO) (including Flight Standards District Offices (FSDO) and certificate management office (CMO)), principal inspectors (PI) and aviation safety inspectors (ASI). The secondary audience includes Flight Standards Service (AFS) divisions and branches in the regions and in headquarters (HQ).

3. Where You Can Find This Notice. You can find this notice on the MyFAA employee Web site at https://employees.faa.gov/tools_resources/orders_notices. Inspectors can access this notice through the Flight Standards Information Management System (FSIMS) at <http://fsims.avs.faa.gov>. Air carriers (certificate holders) can find this notice on the FAA's Web site at <http://fsims.faa.gov>. This notice is available to the public at http://www.faa.gov/regulations_policies/orders_notices.

4. Background. The Operations Specifications Working Group (OSWG) has requested that the FAA update its policy regarding OpSpec A025. The OSWG cited a widespread lack of standardization in A025 authorizations, as a basis for the request. In examining the request by the OSWG, the Air Transportation Division (AFS-200) determined that wide range of varying A025 authorizations was due in large part, to a lack of clear FAA policy regarding A025, and outdated policy and standards related to electronic signatures, electronic recordkeeping systems, and electronic manual systems. As a result, AFS-200 has coordinated with the Aircraft Maintenance Division (AFS-300) and the General Aviation and Commercial Division (AFS-800), to update the A025 templates for parts 91K, 121, 125, 133, 135, 141, and 142, and the underlying policy related to electronic signatures, electronic recordkeeping systems and electronic manual systems. There are no changes to the A025 templates for part 145 repair stations or part 147 Aviation Maintenance Technician Schools (AMTS) associated with this notice.

5. Updated Policy. The following FAA order and advisory circular (AC) have been updated.

a. FAA Order 8900.1. The FAA has updated the following Order 8900.1 sections:

- Volume 3, Chapter 18, Section 3, Part A Operations Specifications—General, OpSpec/MSpec/TSpec/LOA A025.
- Volume 3, Chapter 25, Section 1, General Topics.
- Volume 3, Chapter 31, Section 1, Electronic Signatures, Electronic Recordkeeping Systems, and Electronic Manual Systems, General – Definitions and Terminology.
- Volume 3, Chapter 31, Section 2, Electronic Signatures, Electronic Recordkeeping Systems, and Electronic Manual Systems, Requirements for Approval, Acceptance, and Authorization.
- Volume 3, Chapter 31, Section 4, is now reserved.

b. AC 120-78, Electronic Signatures, Electronic Recordkeeping, and Electronic Manuals.

6. Guidance. This notice contains the following:

- The sample MSpec A025 template in Appendix A applies to part 91K.
- The sample OpSpec A025 template in Appendix B applies to part 121.
- The sample OpSpec A025 template in Appendix C applies to part 125.
- The sample LOA A025 template in Appendix D applies to part 125M.
- The sample OpSpec A025 template in Appendix E applies to part 133.
- The sample OpSpec A025 template in Appendix F applies to part 135.

- The sample OpSpec A025 template in Appendix G applies to part 121/135.
- The sample TSpec A025 template in Appendix H applies to part 141.
- The sample TSpec A025 template in Appendix I applies to part 142.

7. Action. As soon as practicable, PIs must review the updated policy referenced in subparagraph 5a of this notice and notify all certificate holders and program managers with existing electronic signature processes, electronic recordkeeping systems, or electronic manual systems of the revision to AC 120-78 and the contents of this notice. The Order 8900.1 policies and the standards outlined in AC 120-78 are designed to be consistent. However, PIs should also review AC 120-78 to gain an understanding of how the standards are described to certificate holders.

a. PIs of Certificate Holders or Program Managers Conducting Part 91K, 121, 125, 133, 135, 141, or 142 Operations. PIs have 6 calendar-months from the date of this notice to review the certificate holder/program manager's existing electronic signature processes, electronic recordkeeping systems, and electronic manual systems; ensure they are consistent with the updates to the policies set forth in Order 8900.1, Volume 3, Chapter 31, Section 2, and the standards contained in AC 120-78; and issue the revised A025 template. If a certificate holder's existing electronic process or system does not meet the updated standards, the CHDO must inform the certificate holder in writing as soon as possible and provide an explanation that includes a list of deficiencies and required corrections. PIs may not issue the revised template to any certificate holder/program manager whose electronic signatures, electronic recordkeeping systems, or electronic manual systems do not meet the standards of the AC. The previous versions of the A025 template will expire in 6 calendar-months from the date of this notice and will no longer be valid.

b. PIs of Part 145 Repair Stations and Part 147 AMTSs. Although the templates have not changed for parts 145 and 147, the standards for electronic signatures, records, and manuals have been revised. PIs of part 145 repair stations and part 147 AMTSs have 6 months from the date of this notice to verify that each repair station and school that is currently issued OpSpec A025 meets the standards of the newly revised AC 120-78. If a repair station's or AMTS's existing electronic/digital process or system does not meet the standards, the CHDO must inform the repair station or AMTS in writing and provide an explanation that includes a list of deficiencies and required corrections. The A025 templates for parts 145 and 147 have not been revised; therefore, reissuance of these templates is *not* required.

c. New Applications for Electronic Signatures, Electronic Recordkeeping Systems, or Electronic Manual Systems. As of the date of this notice, all new applications for electronic signatures, recordkeeping systems, and manual systems must meet the standards set forth in the current edition of AC 120-78 and Order 8900.1, Volume 3, Chapter 31, Section 2.

8. Disposition. We will incorporate the information in this notice into Order 8900.1 before this notice expires. Direct questions or comments concerning this notice to the Technical Programs Branch (AFS-260) at 202-267-8166.

A handwritten signature in black ink, appearing to read "J. Barbagallo". The signature is stylized with a large, looped initial "J" and a cursive "Barbagallo".

John Barbagallo
Deputy Director, Flight Standards Service

Management Specifications

**A025 Electronic Signatures, Electronic Recordkeeping Systems and
Electronic Manual Systems**

- a. The program manager is authorized to use the Electronic Signatures, Electronic Recordkeeping Systems, or Electronic Manual System listed in this management specification.
- b. The program manager is authorized to use an electronic signature to attest to, certify, endorse or otherwise authenticate, the items listed in Table 1.

(Select from the items in the drop-down menu provided in Table 1)

Table 1 – Electronic Signatures

Kind of Electronic Signature	Electronic Signature Process Revision Number and Date	Manual Containing the Electronic Signature Process
Signature on Electronic Training or Qualification Record		
Fractional Owner's Signature on an Operational Control Briefing Acknowledgement (§ 91.1013)		
Signature on Records or Reports Required by the CAMP (§ 91.1411)		
Signature on CAMP Airworthiness Release or Maintenance Log Entry (§ 91.1443)		
Signatures on Required Aircraft Maintenance Records (§ 91.1113)		
Signature on Electronic Records Authorized in Table 2		
N/A		

- c. The program manager is authorized to use the electronic recordkeeping system(s) listed in Table 2 to maintain records and make them available, in accordance with the 14 CFR part 91 subpart K recording and recordkeeping requirements.

Table 2 – Electronic Recordkeeping System(s)

Kind of Record	Name of Electronic System	Software Version Number	Manual Containing the Electronic Recordkeeping System Description

d. The program manager is authorized to use the electronic manual system described in the master manual listed in Table 3, to maintain, distribute and otherwise make available, the program manager's manuals in accordance with the requirements of part 91 subpart K. Changes to the electronic manual system require a revision to the master manual which must be recorded in Table 3.

Table 3 – Electronic Manual System
