U.S. DEPARTMENT OF TRANSPORTATION  
FEDERAL AVIATION ADMINISTRATION

N 8900.720

National Policy

Effective Date:  
11/21/24

Cancellation Date:  
11/21/25

---

**SUBJ:** Implementation of Powered-Lift

---

- 1. Purpose of This Notice.** This notice announces the publication of Title 14 of the Code of Federal Regulations (14 CFR) Part 194, Special Federal Aviation Regulation No. 120—Powered-Lift: Pilot Certification and Training; Operations Requirements. It also provides basic information on which 14 CFR parts now contain permanent changes and which 14 CFR part contains Special Federal Aviation Regulation (SFAR) No. 120, and lists the directives documents that will be published in support of the safe integration of powered-lift into the National Airspace System (NAS).
- 2. Audience.** The primary audience for this notice is Flight Standards (FS) Safety Assurance principal inspectors (PI) with oversight responsibilities of operators adding or using powered-lift under 14 CFR parts 91, 91 subpart K (part 91K), 135, 141, and 142. The secondary audience includes certificate holders (CH) and designees operating powered-lift, as well as FS personnel in the Office of Safety Standards (OSS).
- 3. Where You Can Find This Notice.** You can find this notice on the MyFAA employee website at [https://employees.faa.gov/tools\\_resources/orders\\_notices](https://employees.faa.gov/tools_resources/orders_notices) and the Dynamic Regulatory System (DRS) at <https://drs.faa.gov>. Operators and the public can find this notice on the Federal Aviation Administration's (FAA) website at [https://www.faa.gov/regulations\\_policies/orders\\_notices](https://www.faa.gov/regulations_policies/orders_notices) and DRS.
- 4. Background.** On June 14, 2023, the FAA published a Notice of Proposed Rulemaking (NPRM), Integration of Powered-Lift: Pilot Certification and Operations; Miscellaneous Amendments Related to Rotorcraft and Airplanes (88 FR 38946). The FAA finalized this proposal on November 21, 2024, by publishing the Final Rule for Part 194, Special Federal Aviation Regulation No. 120—Powered-Lift: Pilot Certification and Training; Operations Requirements (89 FR 92296). The final rule addressed the regulatory barriers that existed for the safe integration of this new category of aircraft into the NAS.

  - a. Changes to Regulations.** The final rule contained permanent changes to existing regulations and created the new SFAR 120, which is specific to the powered-lift category of aircraft. SFAR 120 can be found in part 194, and a listing of the regulatory sections that contain the permanent rule changes due to this final rule are in Appendix A of this notice. This final rule enables powered-lift operations to be conducted under 14 CFR parts 91 and 91K (General Operating and Flight Rules), 97 (Standard Instrument Procedures), 135 (Commuter and

On-Demand Operations), 136 (Commercial Air Tours), 141 (Pilot Schools), and 142 (Training Centers).

**b. Pilot Certification.** The SFAR also created alternative pathways for pilot certification, with specific minimum prerequisites, that are available instead of the requirements currently stipulated in 14 CFR part 61 for powered-lift.

## 5. Discussion.

**a. Regulatory Review.** The FAA completed a comprehensive review of the regulations and determined that although many regulations were not aircraft category-specific, the existing regulations that were aircraft category-specific required revision to incorporate the powered-lift category of aircraft. The FAA also determined that due to advancements in technology, novel aircraft designs and operational uses, and the lack of any civil powered-lift available resulting in few to no civilian rated powered-lift pilots, there needed to be some flexibility and alternatives for pilots to obtain a powered-lift category rating. The 14 CFR parts that have been created or amended are listed in Appendix A.

**b. Document Revisions.** The introduction of civilian powered-lift also required the FAA to create and revise documents, such as advisory circulars (AC), FAA orders, notices, operations specifications (OpSpecs), management specifications (MSpecs), training specifications (TSpecs), and Letters of Authorization (LOA), on a magnitude never attempted before. Therefore, the FAA will use a phased-in, timed approach for the publication of the documents related to powered-lift, enabling the FAA to publish the documents required to get pilots qualified and operations with powered-lift started first, and then phase in the other documents that do not prevent initial powered-lift operations. To accomplish this document phase-in, the FAA conducted a review of the documents being revised, set a priority level for each document, and created a document schedule, which is contained in Appendices B and C of this notice.

**6. Action.** No action is required. This notice is informational only.

**7. Disposition.** We will not incorporate the information in this notice into FAA Order 8900.1 before this notice expires. Direct questions or comments concerning the information in this notice to the Training and Certification Group (AFS-810) at 202-267-1100 or via email at 9-AFS-Powered-lift@faa.gov.

Robert M. Ruiz for  
Lawrence Fields  
Executive Director, Flight Standards Service

**Appendix A. Changes to Title 14 of the Code of Federal Regulations (14 CFR)****Table A-1. Title 14 CFR Parts That Have Been Created or Amended and Published on November 21, 2024**

<b>Part</b>	<b>Section (§)</b>	<b>Scope</b>
Part 1	§ 1.1, § 1.2, § 1.3	Amendment(s)
Part 11	§ 11.201	Amendment(s)
Part 43	§ 43.1	Amendment(s)
Part 60	§ 60.1	Amendment(s)
Part 61	§ 61.1, § 61.3, § 61.5, § 61.31, § 61.39, § 61.43, § 61.45, § 61.47, § 61.51, § 61.55, § 61.57, § 61.63, § 61.64, § 61.109, § 61.163, § 61.165, § 61.167	Amendment(s)
Part 91	§ 91.1, § 91.113, § 91.205, § 91.903, § 91.1053, § 91.1115	Amendment(s)
Part 97	§ 97.1	Amendment(s)
Part 111	§ 111.1	Amendment(s)
Part 135	§ 135.1, § 135.100, § 135.152, § 135.165, § 135.179, § 135.243, § 135.244, § 135.245, § 135.293, § 135.297, § 135.339, § 135.340	Amendment(s)

P	048: Enhanced Flight Vision System (EFVS) Operations	121/135 – OpSpec 135 – OpSpec 91 – LOA 91K – MSpec	New
P	049: Destination Airport Analysis Program	121/135 – OpSpec 135 – OpSpec	New
P	059: Special Authorization Category I (SA CAT I) Instrument Approach and Landing Operations	121/135 – OpSpec 135 – OpSpec 91 – LOA 91K – MSpec	New
P	071: Autopilot Minimum Use Altitudes/Heights (MUH)	121/135 – OpSpec 135 – OpSpec	New
P	073: Vertical Navigation (VNAV) Instrument Approach Procedures (IAP) Using Minimum Descent Altitude (MDA) as a Decision Altitude (DA)	121/135 – OpSpec 135 – OpSpec 91 – LOA 91K – MSpec	New
P	085: 14 CFR Part 97 NDB, NDB/DME, VOR, VOR/DME, and TACAN IAPs Using Substitute Means of Navigation	121/135 – OpSpec 135 – OpSpec	New
P	101: Terminal Instrument Procedures— Powered-Lift	121/135 – OpSpec 135 – OpSpec 91K – MSpec	New
P	102: Authorized Straight-In Instrument Approach Procedures	121/135 – OpSpec 135 – OpSpec 91K – MSpec	New
P	103: Straight-In CAT I Approach Minima	121/135 – OpSpec 135 – OpSpec 91K – MSpec	New
P	104: Powered-Lift Offshore Instrument Operations: Offshore Standard Approach Procedure (OSAP), Airborne Radar Approach (ARA), and Helicopter En Route Descent Area (HEDA) Operations	121/135 – OpSpec 135 – OpSpec 91 – LOA 91K – MSpec	New
P	105: Alternate Airport IFR Weather Minimums	121/135 – OpSpec 135 – OpSpec 91K – MSpec	New
P	106: IFR Standard Takeoff Minimums	121/135 – OpSpec 135 – OpSpec	New

<b>Template Paragraph</b>	<b>Template</b>	<b>Template CFR</b>	<b>Scope</b>
P	108: CAT II and CAT III Instrument Approach and Landing Operations	121/135 – OpSpec 135 – OpSpec 91 – LOA 91K – MSpec	New
P	110: Automatic Landing Operations Other Than CAT II and III	121/135 – OpSpec 135 – OpSpec 91K – MSpec	New
P	112: Instrument Approach Operations Using an Area Navigation Systems	121/135 – OpSpec 135 – OpSpec 91K – MSpec	New
P	113: Terminal Area IFR Operations in Class G Airspace and at Airports without an Operating Control Tower-Nonscheduled Passenger and All-Cargo Operations	121/135 – OpSpec 135 – OpSpec 91K – MSpec	New
P	114: Powered-Lift Authorizations, Provisions, and Limitations into Certain Airports	121/135 – OpSpec 135 – OpSpec 91K – MSpec	New
P	118: Circle-to-Land Operations	121/135 – OpSpec 135 – OpSpec 91K – MSpec	New
P	119: Category I Contact Approach Procedures	121/135 – OpSpec 135 – OpSpec 91K – MSpec	New
P	120: Airports Authorized for Scheduled Operations	121/135 – OpSpec 135 – OpSpec	New
P	121: Terminal Area IFR Powered-Lift Operations in Class G Airspace—Scheduled Passenger Operations	121/135 – OpSpec 135 – OpSpec	New
P	122: Special Instrument Procedures	121/135 – OpSpec 135 – OpSpec 91 – LOA 91K – MSpec	New
P	123: IFR Operations for Powered-Lift Using Required Navigation Performance (RNP) 0.3 En Route and Terminal Operations	121/135 – OpSpec 135 – OpSpec 91K – MSpec	New
P	384: Required Navigation Performance (RNP) Procedures with Authorization Required (AR)	121/135 – OpSpec 135 – OpSpec 91 – LOA 91K – MSpec	New
