

Federal Aviation Administration

Memorandum

Date: March 22, 2016

To: Al Spence, Program Manager, Directives (AES-200)

From: Peter J. Basso III, Director, Office of Financial Operations (AFO-1) 

Prepared by: William McQuillan, Manager, Finance Business Systems (AFO-300)
202-267-3536

Subject: Request to Cancel FAA Financial Order 1375.2A

I hereby request cancellation of FAA Order 13750.2A, "Standard Data Elements and Codes—General Standards" (August 23, 1982).

The information contained in this order is readily available from the primary government source on the internet. It can be found at www.nist.gov - the National Institute of Standards and Technology (formally known as the National Bureau of Standards 1901-1988) or www.census.gov - U.S. Census Bureau or www.usps.com - U.S. Postal Service.

In addition, the cost center information in Order 1375.2A was duplicative to the information contained in the original version of Order 1375.7. The latest version of this order is 1375.7H, Organization Expenditure Codes (OEC) – Cost Center Segment Flex Field dated 10/1/2008. This order instituted the Delphi Organization Hierarchy Tree which made the need for smart coding of cost center codes unnecessary.

The Office of Accounting Operations carefully reviewed the order and determined the need and purpose of FAA order 1375.2A no longer exists.

If you have any questions, please contact me or William McQuillan at 202-267-3536.
